259 the Boston Tea Party was done to destroy competitor's merchandise. The tea was so cheap it was underselling the tea John Hancock's ships were smuggling in. The tea tax was three pennies to a pound which is far less than the 6.25% Massachusetts sales tax today, this was a great deal.

265 Sam Adam's orchestrated the Boston Massacre as a way of saying the British fired first. Adam's Hancock, and Clarke were all in on it.

273 according to all British accounts, the shots fired were in a reaction to multiple shots American troops fired during The Shot Heard Around the world, no one can be sure who shot first.

73 Sassanid conquered the Northwest of Arabia but they couldn't capture the Kaaba in Mecca. This is why Muhammad was sent to take the Kaaba under the protection of the Muslims.

Chapter 4:

The period of A.D. 610-622 was a time of crisis for the Byzantines. The last round of wars had broken out against Persia had broken out.

Britain wanted the second Saud state to frighten the rulers of Bahrain, Dubai, and Oman to pay for protection from the Saud's.

By 1908, the completion of the Hijaz railway from Damascus to Medina had made Ottoman military intervention in Arabia more feasible. The construction of this railway was seen as pious on Abd al-Hamid II's part. Once the railway was there, the Ottomans could easily send troops to Ha'il to help the Rashidi's against the Saud's. they were able to hold their ground with help from the British

A History of Central Banking

27 with tolerable taxes, no state debt and no interest to pay, England enjoyed a period of unparalleled growth and prosperity in the Middle Ages. The average laborer worked only 14 weeks and enjoyed 160 to 180 days holiday. Their standard of living would only be exceeded in the late 19th century.

42 England waged war with America from 1812-1814 instigated by Mayer Amschel Rothschild because America did not renew his central bank he owned from 1791-1811

44 WWI caused Britain’s debt to raise from 650 million to 7.434 billion. WWII raised the debt to 7.1 billion to 20.1 billion. Right now, the debt is at 5 trillion this accounts for all liabilities but it could be lower or higher it’s a good estimate.

Against our Better Judgement

The idea behind Zionism was to create a state where Jews could escape anti-Semitism pg. 27

Zionists had to reject a boycott against Germany in order for them to ship their wealth in full to Palestine. They were called Hitler allies, but Hitler was the chief correspondent to Israel.

Iraqi Jews wanted no part of migration to Israel, the Zionists planted bombs in Synagogues in Iraq to create hatred amongst the Iraqi's and Americans. Leaflets were dropped to get them to flee to Israel.

There was pro Israel propaganda everywhere. Jews were more pro American than Zionist. Threats were sent out to support the Zionists. Dewey and Truman were both persuaded by Zionists.

If they couldn't buy up land, they would use violence. The U.N. knew Israel would take all of Palestine. Because the Zionists, the Arabs fostered ill will, U.S. needed them for the Cold War.

The Jews took land that wasn't theirs and then claimed that the Arab counter attack was an attack on them pg. 48

Israel was founded on terror, war, and revolution as said by Tom Segev an Israeli historian. No rules to war. Hoover, Eleanor, and Truman were all Zionists

the Kabala teaches non Jews are Satan and that the world was created for the Jews

the Jews resorted to force to take Jewish kids from Christian families who were there during the war

The Currency Act of 1764 was a British law that imposed a monetary policy on its American colonies. The Act extended the provisions of the 1751 Currency Act and forbid the colonies from issuing debt-free paper currency as legal tender. This created financial difficulty for the colonies. Benjamin Franklin, the colonial representative, urged the British to reject the Currency Act.

President Washington listened to Jefferson's and Hamilton's position on the central bank, but was ultimately taken in by Hamilton.

Shopkeepers who stored coins for people, for a fee, became known as goldsmiths or silversmiths. Knowing that not every person would withdraw all of their coins at the same time, the Goldsmith began lending out a certain percentage of his deposits, at interest. As long as the goldsmith / banker didn't get too carried away with his scheme, and kept enough coins on hand to meet occasional withdrawal requests, who would ever find out?

This is known as “fractional reserve banking,” (because only a fraction of deposits are actually kept in reserve) and it is actually the basis for our modern monetary system. As the goldsmith / banker gets richer and richer, debt ridden villagers gradually become poorer and poorer.

The Goldsmith Becomes a Counterfeiter When loans were issued only in the form of physical coins, the criminal enterprise of the goldsmith was limited only to high interest loan sharking. You see, gold & silver coins could not be mined and minted "out of thin air." But now, with paper notes purporting to represent the coins being widely accepted as a form of currency, it took the game of fractional reserve banking to a whole new level of profit-making.. Unbeknownst to his depositors, the goldsmith / banker could now get away with lending out more "redeemable" notes than the corresponding amounts of the actual coins that he had in his vault because he can print and lend out as many paper notes as he can, without causing suspicion. pg. 26

But when governments borrow from a privately owned central bank, the bank is actually creating new money "out of thin air" and then lending it to the government at interest.

“If there were no debts in our money system, there wouldn’t be any money.” – Marriner Eccles, Governor of the Federal Reserve Board

Napoleon Bonaparte needed money to finance France’s war of self-defense against the British-led European powers, but he was unwilling to borrow from the big bankers. Instead of crawling to Rothschild and friends (who were heavily funding the British, Prussians and Austrians), he raised money by proposing to sell the massive Territory of Louisiana to the United States. Napoleon’s move would also close a possible front in the western hemisphere from which Britain could wage war against French territory.

By the standards of those days, Jackson treated his slaves humanely and benevolently. The size and quality of the Hermitage slave quarters were above average. Jackson would often pay his slaves with coins that they could trade in local markets.

The White and non-white volunteers all received the same salary. Yes, read it and weep libtards: Andrew Jackson commanded an egalitarian, multi-racial force of brave men who all loved him. pg. 67

"I shall aim at the more anxiously both because it will facilitate the extinguishment of the national debt" Andrew Jackson March 4th, 1829

At the end of the inauguration ceremony, Jackson invited the public to the White House, where his excited supporters had a good time. Thousands of Jackson fans from all over the nation were welcomed into the huge house.

Of course, elitists and elements of the anti-Jackson press wasted no time in attacking the new President. The “Fake News” of the day claimed that an out-of-control mob damaged the fixtures and furnishings and left the White House in an absolute mess. These tales cannot be substantiated by credible primary source data and is, if not false, at least grossly exaggerated.

Jackson was a true populist who had faith in the ability of the people to govern themselves. He was a strict Constitutional constructionist and rejected the idea of an all powerful Supreme Court -- arguing that Supreme Court justices should have to stand for election. Jackson was in favor of term limits on presidents (there were none at the time) and the abolition of the Electoral College.

Jackson, of course, was among the fiercest enemies of the Bank. As a businessman during the Crash of 1819, he personally experienced how speculation and manipulation of bank credit caused "boom & bust" cycles, both of which benefit the super-wealthy and well connected. pg. 100

In spite of attacks against Jackson by Bank agents and anti-Jackson / pro Biddle newspapers, the people, of states north and south, stood with Jackson. He was overwhelmingly elected to a second term over Biddle’s boy.

The Indians were well-paid to relocate and received a large area of new land. The Cherokees of the 1830's actually negotiated the terms of their relocation with Washington DC. The Cherokees, though under pressure, were actually well-paid with removal costs running at about $3 million and another $3 million by 1849. In today's money, $3 million would represent as much as $90-100 million. In essence, the Indian relocation was an eminent domain deal, not unlike the transactions which clear out the residents of city blocks in order to make way for bridges, tunnels, skyscrapers etc.

Jackson always hated debt, both public and private. Like Jefferson, he believed that the debt system was one of enslavement, designed to fatten the bankers. When he took office, the National Debt stood at $58 million. Obsessed with getting rid of it, he sold off Federal land and vetoed one spending bill after another. And now, after just six years, President Jackson had accomplished the impossible – not only 127 paying off the National Debt down to ZERO, but running surpluses which he promptly returned to the states.

In 1839, Biddle resigned his post as president. In 1841, the Bank finally failed completely. Biddle was arrested and charged with fraud, but was acquitted. He died in disgrace in 1844, being pursued by civil lawsuits until his miserable end.

The corporations which create the paper money cannot be relied upon to keep the circulating medium uniform in amount. pg. 145

On May 10, 1837, banks in New York City suspended specie payments, meaning that they would no longer redeem commercial paper value at full face value in gold and silver. As we reviewed in Chapter 2, there simply wasn't enough hard currency to support all of the confetti money that the banks had printed and loaned out at interest (inflation, bubble economics). When those New York banks then scaled back on lending (creating new fake money), by raising interest rates, the effects were very damaging because the old debts became harder to repay. This necessary deflation had to occur in order to correct the inflationary paper bubbles of the banking scam

We believe that the Banking Mafia, acting through its main southern agent, Judah P. Benjamin, murdered President Abraham Lincoln for his Jackson-like resistance to their schemes of national division and debt money war financing.

The winner was Harriet Tubman of "Underground Railroad" fame -- an historically insignificant black woman who, serving as a Union spy during the Civil War, helped a small handful of escaped slaves to safety. pg. 163

"The Trump administration signaled on Thursday that the black abolitionist Harriet Tubman may not replace President Andrew Jackson on the $20 bill after all." NY Times

Bancarotta

As long as the banker makes sure no more than 30% of the cash stored is taken out at once, he can keep giving out loans to consumers of wealth that was never there to begin with….Greece. The money supply does not match the capital earned in the economy. The issue is not that money is being printed (nothing wrong with that), but instead that the money does not match the amount of loans being given out. Too many loans have been given out, it's that simple. As proof, if everyone asked for their loans/ money in the bank in gold, it would not be there. Pay back all of your consumer debts and/ or do bank rushes.

The bank that hands out bad loans can get them using their paper currency because other people are accepting it. This means his clients can get the loans and he can pay using either gold (whatever is in the bank) or his paper notes. This inflates the value of assets because people will go to him for loans and they want his currency. He put fraud money into circulation in order to expand, our dollars is a ponzi scheme. You cannot print money and loan it out in interest. You can only charge interest on money that is earned. You also cannot make a loan and print money to pay for it.

America borrows money from private banks and from the Federal Reserve making us pay interest on these loans.

Whatever a good interest rate is set (6%) at is the value of the asset (home).

When total debts exceed the money supply, someone has to come up short. The money supply will not match the interest on the loan.

The "broken stand (banca)" gave rise to the term "bankruptcy". Banca in Italian = stand or bench. Rotta means broken. Hence, Bancarotta = Bank Broken: Bankrupt (Bank Ruptured) or "broke".

Higher production means lower prices which raises our standard of living

"Unless we have a Central Bank with control of credit resources, this country is going to undergo the most severe and far reaching money panic in its history." – Jacob Schiff pg.41

Income tax and Federal Reserve came in 1913. Booms and busts are not natural. The asset is not worth the value it is charged because you paid in a loan, not just because of the interest paid on it.

Everything will shut down if the dollar collapses. Every transaction that is on a loan or requires money to run will be shut down because the goods can't be purchased/ produced. It cannot be further funded until the problem is resolved.

Goldstein's generous financial contributions to the "left wing" Parliamentarians who always advocate for grand welfare-for-vote schemes; and the "right wing" Parliamentarians who always advocate for war, will create a massive welfare-warfare state that must perpetually borrow money to cover its spending. "Right wing" also advocates for free trade which favors multinational corporations while "left wing" favors tariffs on countries who take our exported goods.

When Goldstein wants to withdraw money from the economy (bust), his Central Bank can sell off bonds to the investors. This removes money from the system as it returns to Goldstein's vault

The "challenge" for the Jewish "geniuses" at the Federal Reserve is to keep enough water in the bucket to prevent it from emptying out (Great Depression, Asset Crashes) -- while not pouring so much in that the bucket overflows (high inflation, hyperinflation, asset bubbles, "overheating" economy etc.).

Buying low-----selling high creates fake wealth and is corrupt practice. You are dumping an asset onto someone else who might not be able to afford it and are inflating the value of the asset (house). The people who buy the home expect it to go up. You sold the home at a high because other sellers did the same. The value of the home is the same as before you helped boom it. A game in which the biggest winners are those who know in advance when the next “liquidity” cycle is going to be rigged. The insiders make money on both the "ups" and "downs".

All currency should be issued interest-free from the National Treasury or National Bank. Loans go out = monetary expansion (inflation / boom) --- Loans get repaid = monetary contraction (deflation / bust).

Only a tiny fraction of the loot which the Feds rake in is actually used to fund highway / road infrastructure and the courts. Police, firemen and schools are mostly funded on the local level.

Class warfare demagoguery for the envious and ignorant! In reality, the top 10% of U.S. earners pay about half of all income taxes. There is no shortage of money flowing into the coffers of the Internal Revenue service! The deficits (in America) are the result of excessive spending on the Department of Defense Offense, welfare schemes, the Social Security and Medicaid Pyramid schemes, the useless Departments of Education, Energy, Homeland Security etc., as well as waste, fraud and abuse. pg. 78

The profit margin is actually one of the lowest components that factors into the price of a given product or service – generally averaging about 12%. There are entire industries that thrive on margins as low as 3% (health insurance and hospital care are among them!) The main overhead drivers of final retail prices are: commodity prices (affected by The Fed's inflation), business taxes, payroll taxes, cost of regulatory compliance, cost of protection against frivolous litigation (liability insurance), and labor costs (affected by The Fed's inflation).

The true rate of inflation does not count food, energy and rent prices.

The Chairman, Vice Chairman, and New York branch Chairman can actually outvote the 12 regional branches.

"The regional Federal Reserve banks are not government agencies. ...but are independent, privately owned and locally controlled corporations." - Lewis vs. United States, 9th Circuit 1982

"As soon as Mr. Roosevelt took office, the Federal Reserve began to buy government securities at the rate of ten million dollars a week for 10 weeks, and created one hundred million dollars in new [checkbook] currency, which alleviated the critical famine of money and credit, and the factories started hiring people again." -- Eustace Mullins, Author & Historian

^^^ U.S. Government bought bonds they sold out in 1913 from the Rothschild's in 1938. This was economic stimulus at its finest.

“The Federal Reserve definitely caused the Great Depression by contracting the amount of currency in circulation by one-third from 1929 to 1933.” – Milton Friedman

Bible from Arabia

To understand the Bible, we either have to go by the Jewish interpretation through Hebrew. Hebrew passed away at around 5th to 6th century B.C. Our best bet is to use Arabic. Syriac or Aramaic. These three languages are too similar.

Asir, which was in-between Mecca and Narjan, was where all of the trade stemmed from. Because merchants had come, they could talk people into Judaism which would spread all of the way into Persia and Turkey

Canaanite language, then Biblical Hebrew, then Aramaic, then Arabic

Jerusalem could mean stronghold, 'holy place' al-Quds

The Hasmonean dynasty may have purposely mistranslated the Bible to have people believe their Judaic legitimacy. The Himyar Kingdom during that time which spread from Narjan to all of Yemen had Jewish kings who would dispute it pg. 22

Climate Bogeyman

CO2 (plant food) is now considered a pollutant

We are now at "our children's future" which had started in the 1970's

Dissenting climate scientists like Richard Lindzen (MIT), Fred Singer (University of Virginia), John Coleman (Weather Channel Founder) will occasionally pop up on small market cable news shows, but are NEVER allowed to come near any of America's major media outlets.

Indeed, warmists are still talking about Exxon Valdez and still lying about how the region “has never fully recovered.”

Ted Turner, who has donated $1 BILLION to the UN, and his Globalist crowd had planned pg.24

Just about every High School in America now has an “Environmental Science” curriculum.

"Under my plan … electricity rates would necessarily skyrocket." Barack Obama

Prince Charles: 100 months to avert catastrophic climate change

"Can you cite for me the name and date of the actual physical experiment which conclusively proved that a few added parts-per-million of atmospheric CO2 will cause Antarctica to melt and flood the world's coastal cities?" then say- “I do not doubt your superior mathematical prowess, but what evidence do you have that the physics and computer modeling of GW/CC correspond to reality?” pg. 53

During the mid-1990's, when RSS data revealed a very slight warming, the warmists breathlessly screamed, "Aha! Science! Science! We told you this would happen!" But after 1996, however, RSS data no longer showed that the slight warming had stopped. Since that time, mainly due to the rapid industrialization of countries such as China and India, manmade CO2 emissions have increased by at least 25%. And yet, the zero-warming trend has continued, month after month, for nearly 20 straight years now.

Antarctica is not melting away.

In other words, melting ice caps cause expanding ice caps. Who knew? Shrinking ice caps --- blame "Global Warming." Expanding ice caps --- blame "Global Warming." The sea level is rising, not lowering,

Not only is the Arctic not melting away at this time, but even it were, there is nothing to be afraid of. The seas-levels did not rise in 1922 and the ice eventually came back.

Nearly 31,500 scientists have signed the petition that do not believe in man-made CO2-based GW/CC - 9,000 of them PhD's and many with backgrounds in atmospheric physics, climatology and meteorology. Physics legends Edward Teller (deceased) and Freeman Dyson are among the signatories of the petition

Manmade CO2 accounts for a tiny fraction of "greenhouse gases"

Many glaciers are expanding not disappearing

Some islands and atolls are actually expanding, not disappearing. Both phenomena are occurring and have always occurred and will continue to occur in the future. pg. 92

Sea levels are not rising

Dr. Morner "You frighten a lot of scientists. If they say that climate is not changing, they lose their research grants."

The polar bear is threatened most gravely by global emissions of greenhouse gases; they are actually thriving and growing. Bears can swim for hundreds of miles at a time.

President George Bush the 41st and his inner circle were looking for a phony pretext to attack Iraq and weaken its ruler, Saddam Hussein. After essentially baiting Iraq to invade the tiny state of Kuwait (formerly a part of Iraq) the Bush administration falsely claimed that Iraq was preparing to invade Saudi Arabia next. To support this monstrous lie, it was announced by Bush's henchmen (and breathlessly repeated by the complicit media) that NASA had satellite imagery showing a massive formation of Iraqi troops on 109 the Iraq-Saudi border. To make a long story short: after the brief war, neither the original source for the claim nor the actual NASA satellite photos could be produced. NASA would neither confirm nor deny the original claim -- thus making the agency criminally complicit in deceiving the American people into an unnecessary war. pg. 108

Climate change denial- a term used to make people seem like irrational conspiracy theorists

Example: The claim that a particular country just experienced its hottest summer in 100 years……. Why is this fallacious? On this huge planet of ours, there will always be a region that just experienced unusual warmth, and there will simultaneously be regions that are experiencing unusual cold. Cherry-picked events prove nothing.

Newsflash, greenies! CO2 is great for plants!

Both in terms of cheap energy and mass numbers of “green jobs,” wind power has failed, in spectacular fashion, to deliver what the greenies and the big investors promised. The inefficient wind-power industry is very expensive, passing its costs on to consumers and taxpayers while creating relatively few jobs. pg. 149

Like wind, solar power can only survive through government coercion, and only benefits the well-connected investors and solar businessmen.

Biofuels are derived from sources such as algae, vegetable oil, corn (Ethanol), waste crop material, and manure – just to name a few. Just like wind and solar, the bio-fuel scam is also inefficient, expensive, and dependent upon forced commerce and subsidies.

Coal miners in Europe and America have suffered the most – with 83,000 American coal miners losing their job as a direct result of Obongo’s EPA sanctions against CO2. (18) In states like Kentucky, West Virginia, Ohio,

Illinois and Pennsylvania, hard working men with families to feed have railroaded into abject poverty, all on the basis of a damn hoax!

"Tonight, I speak before you not as a candidate for President, but as proud citizen of the United States, and a fellow citizen of the world.” Obama pg. 165

"there is urgent need of a true world political authority, … One authoritative source of oversight and coordination is the law, which lays down rules for admissible conduct in the light of the common good." Pope Francis

Russian President Vladimir Putin: "The UniPolar world refers to a world in which there is one master, one sovereign, one center of authority, one center of force, one center of decision-making. This is pernicious - At its basis there can be no moral foundations for modern civilization.”

Day after day, week after week, for about one whole year, high ranking members of the Bush gang and their allied media mouthpieces scared the public with tall tales of Saddam’s “Weapons of Mass Destruction” – aka WMDs” In spite of Iraq’s denials and Saddam’s open invitation for unlimited inspection, the lie of WMDs was repeated over and over again. The public was told that “mushroom clouds” over the Middle East were imminent if the U.S. did not go to war with Iraq.

Confessions of a British Spy

Wahhabi was invented by the British in 1713

Shiites believe Christians are dirt disbelievers, Sunnis and Shia's believe the other are disbelievers pg. 15

Muhammad of Najd believed that Shiites were also Wahhabi's, he ignored the hadith's

All non Wahhabi's are disbelievers and deserve to be killed as taught slay the disbelievers wherever you find them according to Muhammad of Najd pg. 45

Mr. Hempher fabricated a dream that Prophet Muhammad visited him in a dream and told Najd that you are the greatest, Najd believed him

Polygamy was invented for Muslims to have large families

Quran says to travel on the earth

Shiites believe it is haram to build Churches in their countries pg. 79

the Wahhabi's are to publish literature to confuse people

the schools are to educate them not their families or elders

ban polygamy and limit births by only allowing Arabs to marry Arabs Iranians to marry Iranians

Muhammad of Najd was to state that the Kaaba was an idol and that he would destroy it he was to have tribes attack the people living there pg. 107

Muhammad of Najd was to produce a false Quran with false hadith's.

11 in April 2019 33 Shias were executed, being Shia has always been a complicated affair

24 the Muslim brotherhood was expelled from Egypt, Syria, and Iraq in the 1950's and 1960's, they became teachers in Saudi Arabia during that time but have now split

Economic Facts and Fallacies

4 rent control makes it so landlords cannot make money, they make less and rent is cheaper so less is on the market

16 highly crowded cities are not overpopulation

27 in 1901 housing took 23 percent of the average workers family's spending, by 2003 it took 33 percent this is because of zoning laws

50 whether moving people into government housing projects, giving them vouchers to subsidize their middle-class neighborhoods, or moving larger numbers of them from one city to another, the evidence is clear that changing people's location does not change their behavior

69 men are 54% of the labor force but make up 92% of work deaths

129 Harvard spent 399 million in government money in 2004 to invest

145 poverty rate for full time workers was at 2.5%

150 billionaires are much poorer in Africa, this means the money at the top goes down to the bottom

196 this 1991 study of mortgage lending did not take into account credit history and employment history when it claimed 34 percent to 13 percent denial ratings among blacks

221 although advocates of the overpopulation theory argue that rising population threatens to create more poverty, virtually no one can provide examples

Economics in One Lesson

21 costing taxpayers 10 million to create a bridge has caused a diversion of jobs needing more bridge workers, fewer automobile workers truck drivers etc that's where money could have gone. This is relevant to this day with Obama paying workers to improve the roads

41 when machinery cuts down labor costs an employer can get extra profits to buy more machines, invest the money elsewhere, or spend the money to increase consumption

64 no evidence tariffs help in fact labor productivity is reduced from tariffs

112 rent control encourages wasteful use of space. It prevents equal opportunity to bid for a space

118-119 the higher the minimum wage the more unemployment, he already knew this 50 years ago

147 profits tell us how much to make of a product, by price fixing you are propping up superior items

171 the effect of keeping interest rates low is the equivalent of keeping any price below the natural market. It increases demand and reduces supply.

Everything you were taught about Slavery is a Lie

34 Lincoln shut down 14 newspaper stations during the Civil War

35 Lincoln’s emancipation proclamation had no plans for freed black slaves, no housing, food, clothing, employment, or healthcare. I’m sure many people sided with the South knowing Lincoln had no plan

42 nearly all southern blacks supported the south during the Civil War

43 slaves were almost never separated from their families

57 it was either enslave or kill each other since both sides wanted to conquer the land

62 Africa was by far the dominant in slave trade in the world

77 in the 19th century in Zambia slaves made up 33 percent of the population

80 all peoples in Central Africa played a role in supporting the European slave trade

86 in 1850, 17 million Africans were slave owners, and 83 million Africans were slaves

87 all Africans were both by whites by Africans, none were hunted down and gathered

93-94 repeated

105-106 Africans first started to enslave themselves

137 Prophet Muhammad enacted laws where slaves were to be treated humanely, the Quraysh hated him for this since the tribes of Arabia’s finances were dependent on this.

185 without slavery New England would have collapsed

192 Harvard University founded “n word ology” which held that blacks were a subhuman species that forms a bridge between man and apes. Please read the book so you know I’m not making this up.

213 many of today’s wealthy New York Jewish families are descendants of slave owners

229 slave whipping was rare and strongly discouraged and banned in many areas

231 Native Americans practiced slavery for thousands of years prior to Christopher Columbus coming

237 slavery became unprofitable in the North, that’s probably why they got rid of it no ethical reasoning behind it

243 1 out of 4 free blacks were black slave owners

248 one of the reasons why so many Native Americans supported the south was that the South was going to enact laws that runaway slaves would be returned to their slave owners

270 many blacks preferred being enslaved

273 less than five percent of whites in the South owned slaves, most of these slaveowners owned less than five

290 slaves walked freely around town

294 a slave wedding was like any other wedding during this time and both blacks and whites were welcome to go. Of all of the facts this upsets me the most that US history books hide this.

295 slaves could marry anyone they wanted as long as they were of the same race

301 Louisiana banned the ability to break up slave families, this practice was highly discouraged in the South

305 the average slaved earned $48 a year ($1,300 in today's currency), a slave that was dedicated could earn from $60 to $300 a year

318 Southern black slaves worked from sunrise to early afternoon eight hours five days a week with one or three hours off for lunch ranging from 25 to 40 hours worked a week. Free laboring whites worked 70 to 75 hours a week. This is the opposite of what the movies claim.

370 slave homes were in neat rows

374 there were thousands of freed black slave owners that were wealthy

407 Mormons believe blacks are an "inferior race" in the "next world"

427 the Industrial Revolution made slavery unprofitable, this is why the world gave up on slavery not for ethical reasons

441 the Underground Railroad only took 2,000 slaves out of 4.5 million. It was no secret to people, there were no "hidden tunnels"

444 12.5% of blacks in the South were free

477 Confederate President Jefferson Davis said whipping was the least frequent in the South in the whole world and called it "sadistic"

515 "we did not fight the South in order to abolish slavery" Lincoln

521 Jefferson Davis said the South fought for self-government while the North fought for national dominance

523 the 4.8% of slave owners in the South owners knew slavery would go extinct it was just a matter of time

528 North General Ulysses S. Grant said “I would resign my commission and carry my sword to the other side” if the North was fighting to end slavery.

529 Woodrow Wilson concluded the Civil War was fought over money and power not slavery

612 the South knew slavery could not be abolished overnight, they knew it would cost 57 billion in today’s dollars to house and employ all the slaves

623-624 Uncle Tom’s Cabin was a biased version of history with unreliable sources

672 Abraham Lincoln used the n word, and had it so blacks could not attend his funeral

689 Lincoln admitted there was not one slave rebellion in the South

704 Lincoln considered allowing the South to have slavery so long as they joined the Union and paid their taxes

716 Lincoln’s Gettysburg Address was seen as a failure

724 Lincoln had possess of being a Freemason

811 the North turned away black recruits who wanted to join for the first two years

819 freed slaves from the South were beaten, whipped, and sometimes murdered if they did not want to fight for the North

Hitler's Revolution

Once Napoleon entered Prussia, Germans and Prussians revolted against their own monarch opting for a new system where merit took place in the army instead of class. A limited revolution followed in 1848 after the war for a constitutional monarch.

3/4's of children in Berlin died of malnutrition under Napoleons occupation.

Balance of freedom and authority needed.

Lack of responsibility in parliament in capitalism

"A regime must be independent of such special interests. It must keep focused on the interests of everyone before the interests of one" pg. 23 Hitler talking about the state giving money to an industry group.

Followed by "When I recognize a concept as correct, I not only have the duty to convey to citizens, but also to eliminate contrary interpretations"

Head of the state held supreme power. This was to cancel out favoritism in politicians. Leader is sustained by the confidence of the nation.

"Being free is not doing what you want, but becoming what you are suppose to be"

Marx banned from Germany in 1848. Wilhelm Weitling wanted labor acceptance into community, Marx wanted class warfare through hatred and envy, nothing constructive. To have the tradesmen (half of the countries) hate the other half.

"Workers of the mind and fist" NSDAP slogan

Communists tried to degrade NSDAP by saying it appealed to the white collar worker.

"Background should be asked for first to decide the fate of the accused" Martyn Latsis (SU) The Great Purge targeted the most energetic, most capable, frugal, and imaginative people. Stalin intentionally did not release the census of who was killed.

All students required to learn a trade in school. Higher institutions looked for independence of judgment, ingenuity, rapid comprehension, retention, improvisation, and ability to concentrate rather than pure knowledge. Didn't discriminate based on parent's background.

Ten hours a week of school exercise. Taught confidence, adversity, during privation and summoning courage. Students who achieved to the best of their abilities scored the highest. Took field trips to factories, mines and farms.

Accustom students to working hard, viewing assignments systematically, and practicing sound judgment through team work and character building.

The purpose was to prepare students for the real world unlike schools today who teach material that bares no relevance and doesn't teach you how to develop your though process. Studied recent events instead of the past. History course for example in America- teaches the dates and the combatants and how they acted instead of why they acted in that manner (U.S. Civil War). pg. 108

Germans living in Poland were denied work (unless they could speak Polish) and denied farming land.

Poland had already spent 1/3 of their budget in military spending. They had already conquered Galicia.

Half of Poland's population was illiterate

Germans were shot trying to escape Poland. Disloyal Germans were sent to concentration camps. pg. 174

Newspapers in London were taken out because the public would believe Hitler. The papers also did not explain how Poland was mobilizing. Daily telegraph also had explained how the Poles were not willing to negotiate with Hitler.

Points were so moderate that Halifax feared that Americans and British would side with Hitler. "Now we have forced Hitler to war." Marshal Rydz-Smigly declared that he never should have trusted Britain and should have accepted Germany's offer.

"I want nothing to do with these people" Hitler

During the Soviet Great Purge 1.2 million farmers sent to gulags 40% were children. 20 million arrested in 1935-1941 leaving 7 million executed. Officers that were promoted were under age 35.

The Reich imported 80% of their rubber, 60% of their oil (from Rumania), 65% of their iron ore, and 100% of their chrome. Chrome was indispensible and was purchased from Turkey and South Africa.

Hitler deflected blame on the SU for the Spanish Civil War (18k Germans fought in) by explaining how democracies such as France claimed that Italy wanted a land grab in Spain. Hitler said it would be a "question of time" before France fell to Communism. "In peacetime, it is impossible to have a Communist movement" Stalin.

Germany needed nickel and lumber from the SU and Finland since it lacked it. Winter war where the SU invaded on October 30, 1939 nearly a 5:1 ratio of Su troops dying leaving 127,000 killed. Eventually, the SU would have won.

During the Baltic elections, the Red Army sent 18-20 divisions (a lot) to win the scam election. They then deported 140k Estonians, 155k Latvians, and 300k Lithuanians to Siberian labor camps. Only few returned. "We have liberated from oppression by landowners, capitalists, policemen, and similar scum consider themselves lucky." Stalin

5th, 9th, 12th troops were stationed at Bessarabia. 9th Army alone had more tanks than the entire German army at that time. Hitler urged Stalin to invade Persia and India since they were allies at that time. Soviet authorities told locals in Bessarabia not to migrate to Germany because an invasion was coming. By June 1941, 81% of SU forces were stationed near German-controlled territory. Stalin had already worked out a deal with Britain. pg. 222

Italy in October 28th invaded Greece for no reason. British troops got drunk and chased girls while in Greece making it easy to win there.

Stalin liked National Socialism because it disrupted the Capitalists countries saying he "would never tolerate Germany becoming weak."

Hitler traded goods for goods while the USA (rich in resources) traded goods for gold/high interest loans which allowed the USA to hoard it. Hitler believed a country's power of production should determine countries strength.

Forbes (British trade) "Germany using a disrespectful trade method."

"Will anyone suggest that Germany's attempt to dominate trade in central Europe was not a major contributing factor to war?" FDR 1941. German media published a photo of FDR wearing a Masonic ring.

"What we desire is the complete destruction of the German economy" "Germany's most unforgivable crime before WWII was creating her own exchange mechanism which would deny would finance its opportunity to profit." Churchill 1938 pg. 232

87% of Americans opposed a war in Europe in 1940

Without American aid, "we would lose the war" -Stalin

"Roosevelt comes from a super-rich family, belonging from the start to that class of people whose birth and background pave the way to advancement in a democracy. I myself was just the child of a small and poor gamily, and had to struggle through life through toilsome work and by personal industry.....As an ordinary soldier, I tried to do my duty in the face of the enemy during these four year, and naturally returned home from the war as impoverished as I had entered it in the fall of 1914.....Mr. Franklin Roosevelt after the war was already trying his hand at financial speculation.....I was still lying in a hospital"- Hitler

Troops did not separate in the lunchroom the Waffen SS, commanders were allowed to be questioned for their tactics. Troops practiced through calisthenics. They took farmers and people who were smart (but could not afford military school) that displayed loyalty and fearlessness. They were promoted based on task completed. pg. 251

People lost confidence in Denmark. Many Norwegians did not bother to fight because they were outmatched. Both countries did not spend to have a trained military. Both countries had no anti tank weapons and both fumbled with cannons. Denmark had 18% unemployment. 20,000 Dutch fought for Germany. 32% of Danes felt hostile towards Germans while 40% supported them.

British bombed railroads and destroyed farms during Dunkirk on purpose. French commander refused to help British fight in the Gibraltar against Germany. Britain bombed their Bretagne and Dakar ships killing almost 1,300 people. pg. 261

Poles and Ukrainians had to sit at the back of the trains, only Hungarians, Italians, Rumanians, and Germans could sit in the front. 7.5 million foreign workers including prisoners of war worked in the Reich. Many were offered lucrative deals to work.

50k deserted the SU to join Germany. Over one million joined to help Germany fight including 500k Cossacks. pg. 277

SU poured ice cold water over people so they would freeze to death and killed all orderlies. A home was put on exhibit in the Reich showing the extremely poor living conditions.

Haider (German) in 1955 said that every attack was handed over to the enemy before it was carried out. Canaris (German) gave information away to Dutch of an invasion; they did not believe him pg. 298

1941 SU had 25.5k tanks, 18.7k aircraft, and 5.7 million soldiers.

Haider deleted information in the report that the SU could easily counter attack in the Pripyat marshlands during the beginning of the invasion. General Erich Fellgiebel connected through a telephone line (also in Bern) that helped relay plans to Moscow.

During the advance in the Caucasus, the OKH robbed 60,000 Italian Alpine Corps professionals. This was done by marching them to Stalingrad instead of around in the mountains. Trains with supplies would get misdirected. This was corrected when one person was fired.

Hitler was given misleading information, troops often did not follow his orders, and there were senseless movements. Hitler always had a plan but his Generals refused to let it come about. Hitler was always blamed and officers would refuse his order; later on, lying about carrying it about.

Troops at Stalingrad received thousands of old newspapers, candy, false collars, barbed wire, roofing paper, four tons of butter and pepper, 200k pocketbooks, shoes laces, and spices. pg. 315

Germany was unsure if the Allies would land at Calais; this meant troops had to be stationed there and an attack had to be planned for at all times.

Colonel Meyer (German) intercepted radio traffic on June 1,2,3,5 announcing the invasion. No one ever alarmed the front line units.

260k men were stationed to build the Atlantic Wall in May 1943. 20k men were supposed to invade in the first wave, and then have 107k come in on shore in the second night. Germany had 128k men

500k gallons of aviation fuel, 175k, food rations, and 2.5 million cigarettes did not reach Normandy during 6 day invasion. pg.335

Falling into the USA's hands were 500k gallons of aviation fuel and 175k day's worth of rations for the troops including 2.5 million cigarettes.

German headquarters staffers failed to alarm front-line units, air crews, and naval forces in a timely manner. The delayed counter attacks, issued frequently conflicting orders, and commanded anti- aircraft batteries to hold their fire during Allied bombardment of the Le Havre naval Base, and they transferred combat ready formations away from the enemy.

General Friedrich Fromm only brought 6k soldiers and 17 tanks to replace the 96k lost during the Normandy Invasion.

"No German worker would raise a hand against me. This is the work of some degenerate aristocrat" -Hitler after assassination attempt. "This battle isn't about governments anyways, but a battle of diametrical ways of life" -Brauchitsch

"More than 60% of the new officer corps rose through the ranks, creating a bridge to the hundreds of thousands of workers, farmers, and members of the lesser middle class." -Hitler

In Hamburg alone, 30k residents died by British bombardment in July 1943. pg. 348

55/70 military officers who tried to overthrow Hitler were aristocrats.

"Hitler rarely gave a direct order. He persuaded others to agree with him" Colonel Below

Interview:

Only Hitler agreed to FDR's disarmament while all of the other empires were arming.

Jews were escaping Poland's persecution into the German Reich. Poland said they would build a statue of Hitler if he mistreated them.

Richard Tedor does not believe Hitler let troops retreat in Dunkirk. So much information was given out the British often times did not believe it.

In 1943, there was a Vichy French movie that was banned in the USA and it showed how well the Germans ran it.

Hitler did not want to rearm German Reich fearing an uprising. He knew that he had to get the citizens trust first so he put as much money into the economy as possible.

Would we use the propaganda used during war in movies today?

Hitler favored human rights with a socialism he invented where everything including corporations were owned by the government. Britain and the USA had to fund Hitler because Communism would have gotten all of Europe. Capitalism had failed the middle class and made everyone very poor because bankers owned everything and there was no means of production, there was only entertainment, countries started investing in them. Stalin meanwhile wanted communism, but the human rights in it were so bad there were many food shortages and famines. The only system that doesn't work is socialism; we know it to be a fact with countries like Cuba.

I don’t like Ike

Benjamin Disraeli wrote: "The world is governed by very different personages from what is imagined by those who are not behind the scenes."

Anti-Globalist Warren Harding was awarded the Republican nomination instead, and then went on to win the 1920 election by a 2-1 margin.

An Inspector General's investigation into suspected financial fraud nearly ended Eisenhower's career and could have landed him in prison. (14) Investigators charged Ike with having knowingly accepted $250 in dependent housing subsidies ($3,500 in 2017 dollars) for Mamie and Icky while they had actually been residing with Mamie's relatives in Denver. 20 Ike was forced to repay the extra money that he had pocketed. But General Eli Helmrick insisted that Ike had acted with clear intent to defraud, and wanted him court-martialed and discharged. In addition to Helmrick breathing down his neck, Eisenhower, his career fading fast, was still in the dog-house with Generals Farnsworth and Sheets over his provocative writing. Oh how fortunate for Ike that his friend George Patton had previously become such good friends with a man of General Fox Conner's rank!

In an effort to keep America inflamed, the British fabricated a story about German school children being given a holiday to celebrate the sinking of the Lusitania. Other false tales told of German soldiers nailing babies to church doors in Belgium!

Battle of Verdun / Kaiser Wilhelm wanted peace all along. pg. 31

Chaim Weizmann and Nathan Sokolow approached the British with a dirty deal. The Zionists offered to use their international influence to bring the US into the war on Britain's side, while undermining Germany from within. The price that Britain had to pay for American entry was to steal Palestine from Ottoman Turkey (Germany’s ally) and allow the Jews to settle there.

By the fall of 1918, it was clear that Germany could no longer win the War. Its policy now was “to not lose it either." As he had in 1916, the Kaiser offered to negotiate peace on terms favorable to all. Though Germany could not win, the Allies were not able to win either. Germany's Eastern front with Russia was closed. 38 There were no Allied troops on German soil, and the Capital, .Berlin, was 900 miles safely away from the front.

The Treaty of Versailles contained 440 clauses, 414 of which were dedicated towards punishing Germany for a war that had been imposed upon her.

Two million West Prussians were forcefully expelled from their homes, and East Prussia was left isolated from the rest of Germany.

To draw recruits away from both the rival “right” Nationalist and “left” Socialist Parties, Hitler simply adds ‘National’ and ‘Socialist’ to the Party’s name, making it NSDAP. They never called themselves "Nazis"!

Reds staged large rallies which led to violence in Boston, New York, and Cleveland.

"During that time, I met and worked with many people whose opinions I respected highly. Among these an outstanding figure was Bernard Baruch, for whom my admiration was and is profound. I still believe that if Mr. Baruch’s recommendations for universal price fixing" Dwight Eisenhower pg. 61

Eisenhower opposed his superior’s plan to crackdown on the Reds.

“…to transform the department immediately into a vast action agency to restore parity of income to American farmers.” Henry A. Wallace, Roosevelt's Secretary of Agriculture --- a villain now known to have been a secret communist.

To manipulate prices upward so that unpayable business loans can be repaid, farmers were ordered to kill livestock as millions went hungry during the Great Depression! In one well-known case, a New Jersey tailor named Jacob Maged was arrested and convicted for charging too little to

press suits. Upon his release after 3 days, Maged was forced to increase his prices and display a blue NRA sticker on his shop window

And one thing that is clear to me is that Germany did not make up these attacks." George H. Ohio, USA pg. 88

The Neutrality Acts had prohibited the United States from selling arms to warring nations. The purpose of these acts was to prevent the U.S. from again becoming involved in Europe's wars. Throughout the 1930's, FDR and Bernard Baruch, anticipating a new war against Germany, had unsuccessfully tried to amend the previous Neutrality Acts. Soon after Germany and Poland began fighting, FDR again urged Congress to repeal the Neutrality Acts.

July, 1939 George Marshall & Bernard Baruch plot to prepare America for a new war, "I was in hopes we would have a neutrality legislation that would permit the manufacture of airplanes and the export thereof during war" Bernard Baruch

1942-1945 General Eisenhower takes a mistress -- divulges wartime secrets to her pg. 121

The grand plan was to hand Eastern Europe, on a bloody silver platter, to the monster Joe Stalin.

"This landing is part of the 132 concerted United Nations plan for the liberation of Europe, made in conjunction with our great Russian allies." Eisenhower after D'Day

Instead of exploiting the "soft underbelly" of Italy, Eisenhower sent thousands of men to their deaths by storming fortified French beaches to allow the Soviet Union to capture East Europe.

General Devers could have rolled into Germany and taken Berlin, but Eisenhower (who disliked Devers) stopped him

The deadly German counter-offensive known as “Battle of the Bulge” should never have happened.

"I could have taken it (Berlin) had I been allowed.” General George Patton pg. 151

Operation Keelhaul by Julius Epstein is one of the most heart-breaking accounts that you'll ever read. Terrified Russian POWs (declared to be traitors) and Waffen SS men from many countries were shipped to the USSR to be murdered

The Marshall Plan was a massive US Foreign Aid scheme for post-war Western Europe. The only way to sell the Globalist Marshall Scam was to use reverse psychology and present it as an "anti-Communist" plan that Stalin opposed.

The National Security Act of 1947 created the Central Intelligence Agency (CIA). Upon Globalist orders, the super-secret CIA assassinates political leaders, stages ‘false flag’ terror attacks, manipulates the news and destabilizes foreign governments. CIA is also active on U.S. soil.

August, 1948 Alger Hiss exposed as a Soviet spy

Thinking that they could eventually work with him to build an integrated ‘New World Order’, the Globalists turned a blind eye to Stalin getting an atomic bomb --- and then they used the fear of the weapon to manipulate the world into more and more Globalism.

Notice how the Time Magazine Cover for CIA boss Allen (Image 2) depicts an assassin with “cloak and dagger.” Who knows how many people the Eisenhower-Dulles gang assassinated with “heart attacks” and “cancer.” pg. 197

"Eisenhower knew POWs remained in Korea Newly disclosed documents suggest that as many as 900 U.S. servicemen were left behind in North Korea after the United States and North Korea exchanged prisoners following the Korean War. The declassified papers were released by the Dwight D. Eisenhower Presidential Library." CNN

August, 1953 The Iranian Coup: Eisenhower and Churchill overthrow the government of Iran. As now confirmed by declassified CIA documents, some of the nastiest mobsters in Tehran were hired by the plotters to stage “spontaneous” pro-Shah riots in August. Other CIA & MI6 hirelings were bused into Tehran to take over the streets. Between 400 and 800 people died in the ensuing conflict. Mosaddegh was arrested and convicted of “treason” by the Shah's military court. He was sentenced to three years in jail, and then placed under house arrest for life. His loyal supporters were imprisoned and several were executed.

The Council on Foreign Relations (CFR) was quick to denounce the Bricker Amendment by running a 19 page hit piece in its quarterly journal for the elite, Foreign Affairs. CFR man Eisenhower obediently fell into line, fronting for his New York masters in calling the Bricker Amendment backers “nuts and crackpots.” pg. 214

Eisenhower’s phony “Domino Theory” was just more of the same Cold War Globalist propaganda. Domino Theory eventually led to the disaster of the Vietnam War.

The geo-political game in Vietnam, as it was in Korea, was never about “stopping communism.” The purpose was to keep America bogged down in endless no-win wars against the exaggerated foreign “bogeyman” of Soviet communism. This is not to suggest that the Soviet Union was not a real adversary, of course. But the true communist threat was domestic all along. Under Ike’s protection, this cancer, under the guise of “liberalism,” continued to spread like cancer throughout America’s political, journalistic and academic institutions.

Operation Wetback originated from a request by the Mexican government to stop the illegal entry of Mexican laborers into the United States.

The 1954 Guatemalan Coup was yet another covert operation carried out by the Eisenhower gang. The coup, code-named Operation PBSUCCESS, deposed the democratically-elected President Jacobo Árbenz and installed the military dictatorship of Carlos Castillo Armas. The United Fruit Company (UFC), whose highly profitable business had been affected by the end to exploitative labor practices in Guatemala, wanted Árbenz out.

Autumn 1956 Hungarian Revolution, there were to be no weapons, nor even any symbolic words, recognizing the struggle for a free Hungary. All that President Eisenhower could muster was an empty and obligatory: “Our hearts go out to the people of Hungary."

The “Warren Court,” named after Chief Justice Warren, remains infamous in the minds of conservatives. Warren’s 16-year reign of radical activism enhanced judicial power in dramatic fashion never intended by America’s founders. The Warren Court handcuffed police, coddled criminals, abolished school prayer, imposed integration on school districts, restricted religious freedom and protected communist subversives. pg. 244

Just like Chiang in China ('49), Batista was betrayed when the U.S. refused to ship armored cars purchased by Cuba. This emboldened Castro and demoralized the Cubans. By abandoning Batista, the Eisenhower gang handed Cuba to Castro. In 1960, Ambassador Smith charged: "Without the U.S., Castro would not be in power today."

For his service to Castro's communism, both before and after the revolution, Castro presented Herb Matthews, his propagandist friend at the New York Times with a medal during his 1959 visit to New York.

First Lady Jackie Kennedy would later reveal how her husband was so upset that he put his head in his hands and wept over the fate that had befallen the betrayed Cuban patriots at the Bay of Pigs.

Lemnitzer's scheme called for CIA operatives to commit terrorist acts in American cities which would then be blamed on Cuba – the purpose was to create public support for a war, which would surely have escalated into a world war by drawing in Cuba's Soviet protector. The proposals included the shooting of innocent Americans on the streets, hijackings, and bombings followed by the introduction of phony evidence to implicate Cuba. False Flag Horror: Another Eisenhower plant causes trouble for Kennedy. Lyman Lemnitzer wanted American planes to be shot down and American citizens killed in the streets. Kennedy killed the plan.

In a series of 1962-63 rulings, the Eisenhower / Warren Court banned bible readings and even non-sectarian prayers in public schools. These shocking edicts were applauded by Communist and Jewish groups nationwide. pg. 268

The Tonkin Gulf Incident was a fabricated event involving the US and Red North Vietnam. The new President, Lyndon Baines Johnson (LBJ) claimed that the 271 North's torpedo boats fired upon U.S. ships. But he was either lying or played for a fool by the Council on Foreign Relations "advisers" surrounding him. There had been no attack! Defense Secretary McNamara (CFR) lied about the fictitious attack which will drag America into the Vietnam War.

Indus Valley Civilization

9 these people did not build massive, monumental structures. No pyramids or ziggurats. They were not warlike. The date of the Indus Valley Civilization was from 3,300-1,300 B.CE. This means Hinduism wasn't the first religion if the people who lived in the land wasn't religious, Hinduism which had to of begun in the region didn't start yet.

10 the civilization may have started back in 6000 B.C.

11 they started as hunter gatherers in 10,000 B.C. by 7,000 B.C. they began to use simple tools to build settlements

16 houses had wells, baths, and toilets. Europe didn't have these necessities until 4,000 years later!

17 houses were big, around 8,000 square feet

18 no royal palaces and no military centers, this was a society with a centralized control.

It Wasn't About Slavery

XVI the war was for Southern Independence

1 there are more slaves today than any point in history at 40.3 million

21 New England threatened to leave the Union in 1789-1860, it's no wonder why the Confederates wanted no part of it

30 Lincoln was part of the American Colonization Society which believed in the "Back to Africa" movement

47 tariffs were paid 90% by the South

51 Anthony Trollop a British citizen observed that the South wanted to secede because they were different from the North

53 segregation did not exist in the South but in the North. Slaves attended church to listen to the sermons, this means slaves were educated at least knowing right from wrong

58 the South had a 91% literacy rate compared to an 88% literacy rate in America today. By no means were they uneducated.

103 Karl Marx and Friedrich Engels said the war was a tariff war and had to address the issue of slavery. The North demanded that the tariff be doubled before the war

113 Lincoln only opposed the expansion of slavery

117 the North was not willing to help pay for a compensated emancipation, it would take both sides to get slavery abolished.

153 the South fired the first shot, the North waited for it and started the war

154 people in the North were arrested for opposing the war

165 the first draft occurred in New York City on July 11th, 1863. Two days later 500 people turned into a mob. An estimate had 2,000 people dead and 8,000 injured from the protests.

174 1 to 4 million freed slaves suffered serious illness or death. At least tens of thousands of black children died

175 the war probably ended slavery 30-35 years early

177 tax rates in the South went up 300 to 400 percent by 1861

Jewish Domination of the Weimar Republic

The statistics in Germany only accounted for professed Jews and not Jews by race so they were far underrepresented

out of ten Jews, seven live in large cities and three in small towns or in the country, while, for the rest of the population the proportion is exactly the reverse, in so far as in their case seven live in the country and only three in large cities

the Board of Directors of the Berlin Stock Exchange consisted exclusively of Jews

Jews represented 25/40 of the economic division

50% of law and health were run by Jews pg. 22

"Institute for Sexual Science" was to degrade the family

Jewish groups were created with the slogan "soldiers are murderers"

All of the newspapers wrote good reviews about Communist and Bolshevist. A Soviet film was treated as the best film ever produced

Jews would speculate army contracts they had offered for war material, this is how Germany lost WWI and could not control the Weimar Republic

Jews had sabotaged WWI. For example, they sent chocolate to a manufacturer of goods

Prosecutors couldn't put Jews in jail for bribery under the claim for anti-Semitism pg. 42

Every position of authority was occupied by Jews in the October Revolution

Jews were behind making Germany look like the perpetrators of WWI

Communist assassins were seen as victims in court

Students were subjected to visiting brothels and had to write about it

39% of Berlin was Jews while they had only made up 1% of Germany

Each Jew had four and a half times as much as the regular German

60% of Berlin belonged to the Jews

To solve the Jewish Problem, Jews were prohibited from buying gold and silver, Jews had to surrender all stocks. Also, Jews could not own a firearm

Jews could take out an unlimited amount of money to immigrate to Palestine

Hitler personally reviewed the Haavara agreement twice and approved of it. Because of WWII, they had to put the Jews in camps. For two years Jews hid their role in it.

Jewish Run Concentration Camps in the Soviet Union

at least 20 million died from 1917 to 1937 at Gulags

they went so far as to lie that Stalin appointed the 11 out of 12 commanders at the Gulag to blame the Jews

children had to report their own parents

Roosevelt had a pastor who published a book and 26 other anti communist spies arrested for treason against the U.S. government

people only got a small piece of bread during the summer often collapsed in cold during the winter. They were beat until they couldn't lift an arm

Jews kept the food so scarce so a counter revolution was impossible in the Gulags. The death toll was large amongst children.

Soviets had lied about children being put in comfortable "homes" schools. Homeless children were brought to concentration camps. Children would die on the freight trains over to the camps.

The local work department officers would mock homeless children looking for work in the labor force and would send them to a Gulag. They were treated as state criminals and were either shot or "sent off" pg. 28

letters that were sent from the Gulags had to be short and could not explain

the guards were all verbally abusive. The slightest negligence or inability to work would lead someone to the "penal isolator" where they were sent on starvation rations and tortured in every way possible.

tradesmen and peasants had to go to the Gulags. They would succumb in masses from the work due to being unable to work a manual job, their bodies were too taxed with the work.

In a 1949 incident for which the freshman Senator would be widely criticized, McCarthy took a brave and lonely stand by advocating for the commutation of death sentences given to a group of Waffen-SS soldiers wrongly convicted of massacring American prisoners of war in 1944. To the dismay of Communists and some Jewish groups, McCarthy condemned the convictions because torture (repeated hard kicks to the testicles of the Germans) had been used to extract "confessions." He charged the U.S. Army of engaging in a cover-up of this commonly-used interrogation practice.

March, 1881 Communist terrorist finally kill Alexander II. The killing of Alexander II triggered massive Jewish immigration to America. Alexander is remembered as the man who liberated the serfs.

The Royal bloodbath in Europe continued when Red assassins murdered King Carlos of Portugal along with his son and heir to the throne, Prince Luis Filipe. The assassins, Alfredo Costa and Manuel Buiça, were linked to the secret 37 Carbonari Society. They had also wanted to murder the Queen in the hopes of provoking a revolution.

1921 - 22 War Communism starves 10 million to death. The Communists ran the money-printing presses to finance their civil war and Marxist schemes.

When inflation followed, they imposed price controls, causing farmers to lose money by farming. Compounding the shortage was the Red seizure of seeds. The horrific famine was then used to selectively feed regions submissive to the Reds, and starve out those loyal to the Whites.

"This new and complete Revolution we contemplate can be defined in a very few words. It is outright world-socialism; .scientifically planned and directed."… Countless people will hate the new world order and will die protesting against it. When we attempt to evaluate its promise, we have to bear in mind the distress of a generation or so of malcontents. …..The term Internationalism has been 68 popularized in recent years to cover an interlocking financial, political, and economic world force for the purpose of establishing a World Government." H.G. Wells

However, after the war, Stalin would break with the Globalists and move towards a form of Nationalistic Communism instead. Stalin would still support world-wide Communist revolution, of course, but his vision of a New World Order was one in which Moscow called the shots, not London or New York. pg. 69

"At Wheeling, I discussed a letter which Secretary of State Byrnes wrote in 1946 to Congressman Adolph Sabath. In that letter, Byrnes stated that 284 individuals had been declared by the President's security officers as unfit to work in the State Department because of Communist activities and for other reasons, but that only 79 had been discharged. This left a balance of 205 who were still on the State Department's payroll even though the President's own security officers had declared them unfit for government service. I did not have the names of the 205 referred to in the Byrnes letter. I did have the names of 57 who were either members of or loyal to the Communist Party." Joseph McCarthy

Fifty-four individuals who had this unusual State Department affliction – homosexuals – were allowed to resign. Since the late 1940s, the federal government had been dismissing about five homosexuals a month from civilian posts. By 1954, the number would grow to about 50 per month.

In 1954, when the Senate voted to censure McCarthy; JFK would be the only Democratic Senator not to publicly declare support for the censure of McCarthy's. He would not even be present for the humiliating vote, having conveniently scheduled a surgery for that day. It was not until 1956 that JFK would issue a vague public statement supporting McCarthy's censure, and that was only because his political future dictated it.

"I warn you, however, that the task will not be a pleasant one. When you detect and start to expose a teacher with a Communist mind, you will be damned and smeared. You will be accused of endangering academic freedom. Remember, to those Communist-minded teachers, academic freedom means their right to force you to hire them to teach your children a philosophy in which you do not believe. 259 To Communist-minded teachers, academic freedom means their right to deny you the freedom to hire loyal Americans to teach your children" Joseph McCarthy

The Ruling Elite- Zionist Seizure of World Power

War creates famine due to the cessation of transportation and agricultural production. The victorious nations are those who have superior weaponry purchased by the unwitting taxpayers from the banker-controlled corporations. The lawyers, during the peace process, reward the victorious nations with spoils, reparations payments, and the right to occupy the vanquished nation with military bases and troops. Wars cause unnecessary long-term resentment among populations.

The Khazars adamantly rejected assimilation in order to retain their unique identity preferring to live in ghettos instead. The rabbis realized that they would lose their power over their people if they accepted other authorities.

Until first Rothschild came along, Palestine was always considered Christian Holy Land.

B’nai B’rith 1850 started anti-Semitism

Disraeli himself stated the Jews are the ones who give out the loans for war pg. 12

They wanted to get Jews integrated into society so they could run it in the future 1850.

Moses Hess formulated the "Socialist" ideology. In an 1845 article, “About the Monetary System,” He said that the Jews’ function was to change mankind into a savage animal.

According to Baruch, Jews would control the world, all resources (through socialism), merge the races, abolish borders, eliminate the royal families, and establish the Zionist state.

The Ottoman government burdened itself with £191 million through thirteen additional loans, with interest rates between 10 and 21 percent (Crimean War).

PDA practically bankrupted the Ottoman Empire It collected revenues on certain products, such as salt and tobacco, to pay the foreign debt, which reduced Turkey to an economic vassal state and stripped it of sovereignty. The PDA could, if necessary, use military force to guarantee government compliance. pg.29

Kaiser Wilhelm II rejected the idea of sponsoring a Jewish homeland in his meeting with Herzl

On March 5, 1883, the government, in an attempt to block Jewish land purchases in Palestine, passed a law to prevent them from acquiring any land there. However, this law failed to restrict Jewish residents from buying land on behalf of Zionist colonizers. They simply purchased and registered the land in their names. The Ottoman Land Code allowed property ownership in other parts of the Empire, except Arabia.

Herzl in 1896, offering £20 million to the Sultan Abdulhamid II, received this response-“If Herr Herzl is as much your friend as you are mine, advise him not to take another step in this matter. I cannot relinquish a square foot of land, for it does not belong to me, but to my people. My people have conquered and fortified this empire with their blood. As long as we are alive, I will not permit a vivisection."

German Zionists funded Ottoman Empire during the 1897 war with Greece in a way of peace offerings.

The sultan refused to open Palestine, but offered the Jews Mesopotamia, Syria, and Anatolia. Herzl, with additional leverage, rejected the offer.112 Negotiations ended in 1902, without resolution. Sultan wanted the Jews to give all of the gold mines in Ottoman land sold for their own control.

The other European countries accused Britain of using the Jews to increase their control in Palestine. The Ottomans viewed them as “another advance guard of further political European influence in the Ottoman Empire.”

In the first place, there are 14,000,000 Jews, and Palestine would not accommodate more than one-third of that number. Palestine was overpopulated at that time.

Experts estimated the chemical and mineral wealth of the Dead Sea to have a proven value of $5 trillion (1947 money).

Herzl in 1905 favored Uganda—not instead of Palestine, but as progress toward that destination. When Herzl and Litman Rosenthal discussed it afterward, he told Rosenthal, “There is a difference between the final aim and the ways we have to go to achieve this aim.”

Wolffsohn- In his closing remarks, he pleaded for “greater unity among the Jews” and said that eventually “they must conquer the world.”

Brandeis- "will likewise be a better man and a better American for doing so. There is no inconsistency between loyalty to America and loyalty to Jewry.”

By 1880, JD Rockefeller was refining 95 percent of the nation’s oil.

“Those who control education will over a period of several generations control a nation.”---Harvard, Yale, Columbia

By 1888, the Senate Committee on Education produced a 1,382-page document to define the purpose of mass education—impose conformity and subordination and restrain natural curiosity through an “anti-intellectual shift in schooling” under compulsory, regulatory standards.180

"The present educational conventions (intellectual and character education) fade from our minds, and, unhampered by tradition, we work our own good will upon a grateful and responsive folk. We shall not try to make these people or any of their children into philosophers or men of learning or men of science. ...We shall not search for embryo great artists, painters, musicians, nor lawyers, doctors, preachers, politicians, statesmen, of whom we have ample supply" JD Rockefeller letter in 1906

Rockefeller gave his foundation $100 million in its first year of operation, 1913. The elite transfer their funds into tax-exempt foundations, like taking money from one pocket and putting it into another pocket to escape taxes and to further grind the face of the poor by controlling and directing domestic and foreign policy. It's not charity.

In 1882, Chinese arrivals totaled 39,579, which generated anti-Chinese riots by infuriated white laborers on the Pacific coast, who now had to compete with cheaper labor.

“American institutions rest solely on good citizenship.” People who had a background of self-government created them. He endorsed “restricted immigration,” in keeping with America’s capacity to absorb immigrants willing to practice good citizenship. He said, “Those who do not want to be partakers of the American spirit ought not to settle in America.”---Calvin Coolidge 1923

With all the producers under one management, they would manipulate the price, as Rockefeller had done with oil, to downgrade the quality of those brands. In 1898, the legitimate distillers tried to establish such a conglomerate, the Kentucky Distillers, to counter the onslaught of imitation whiskey. pg. 91

The Jewish controllers focused on selling their debauched liquor in quantity, including selling the cheap barrelhouse at cut-rate prices. Many Jews became saloon owners and the number of dives selling barrelhouse increased. Soon, there was a widespread wave of vice in various parts of the country, which people could not explain. However, the people behind it knew the cause.

Give me your tired, your poor,"----poem written by Emma Lazarus (Khazar) in 1903. Now engraved in the statue of liberty.

1965 Lyndon Johnson bill made for no quotas on immigrant based on ethnic background

One might also accuse the leaders of multinational corporations whose greed for profit is "stronger than nationalism."

Nationalists believe in reasonable tariffs that protect the nation’s industry rather than free trade.

Karl Marx advocated both the income tax and free trade because, he said, “it breaks up old nationalities” and eliminates the “bourgeoisie.”

Albert Einstein, an ardent globalist, said, “Nationalism is an infantile disease. It is the measles of mankind.”

Nationalists have no imperialistic designs, nor do they engage in aggressive warfare, but rather respect the nationalistic endeavors of other countries.

Imperialists criticize nationalism because it obstructs their exploitative objectives to bring all nations into one “Global Plantation” under their rule.

McKinley worked for Sugar Trust

In 1890, they thought that sending Blacks to Cuba would Americanize Cuba.

Havemeyer’s owned 98% of sugar by 1907

USA staged coup in Hawaii in 1893 by allowing sugar imports from around the world. They claimed the need for democracy in Hawaii. This quickly crippled Hawaii's economy. They did not inform the 40k Native Hawaiians, but they did inform 33k Asians and Whites. America claimed that Japan and Britain were colonizing it. Hawaiians never wanted to be annexed to America. pg. 144

Monroe Doctrine in 1823 stated that no European power would have control over South America/ Pacific

Fish wanted to pay $100 million to Spain for Cuba’s independence to avoid a war, as he did not favor annexation predicated on his racial views.

Some Rebel Cubans purchased a US steamer, Virginius, registered it in the United States, and deceptively flew the US flag while supplying contraband to the Cuban rebels.

USS Maine explosion blamed on Spain in Cuba, 50k reward for whoever found out who did it.

Blacks were banned from military until WWII.

US corporations were looking for ways to seize productive land and control in Cuba. They ultimately achieved this through the Platt Amendment on March 2, 1901. Guantanamo Bay enabled the US to control the Caribbean Islands.

United Fruit began expanding its potential supply sources and purchased more property in Santo Domingo, Honduras, Guatemala, and Panama, as well as more acreage in Colombia, Nicaragua, Cuba, and Jamaica creating railroads and ports for cane and bananas.

The US government sent troops in 1906, 1912, 1917, and 1920 to halt the justifiable uprisings against US control over the Cuban economy. The Cubans rebelled against this injustice, and Congress finally repealed the Platt Amendment in 1934.

In retaliation, President Roosevelt, controlled by private interests, deployed the US Navy's Caribbean Squadron to Dominican waters. SDIC's private interests and Washington's Caribbean policy was instituted in 1904, supported by US warships.440 People deceptively refer to that policy, still current, as "national interests.

However, the document extended US military control, with 75,000 troops by 1899 and, within a few years, 126,000 men. It arrogantly granted military dominion over the entire country in fulfillment of the rights of US sovereignty for the Philippines. pg. 184

The historian and diplomat George F. Kennan blamed US imperialism on the American people, who wanted to see the US flag flying on distant tropical isles and to bask in the "sunshine of recognition as a great imperial power." He did not mention the thousands of Americans who opposed both the war and a US empire. Somehow, he claimed, the leaders just could not resist the citizen's demands.

One squad killed more than 1,000 "dark-skinned" Filipinos in just one village. General MacArthur defended his army's civilian massacres as "carrying out the civilizing mission of its Aryan ancestors."

The US military killed at least 100,000 just in the Panay Campaign, the Samar Campaign, and the Batangas Campaign, which all occurred after Bell's interview with The Times. Further, it did not include the post-war period when the United States incarcerated 300,000 people in Albay. One must conclude that the United States killed more than one million Filipinos in their effort to "liberate" and subdue them.

Before the US invasion, they had been a major rice exporter. The army reopened the ports in May 1901.

Without any tariff protections, the US politicians, deliberately or inadvertently, targeted the Philippine manufacturing industry for destruction, the exact same reason for the destruction in the US manufacturing through free trade. Quezon (2nd president) warned of this.

The Philippines is a classic case of the development of underdevelopment. The export business depended on four crops— sugar, coconuts, hemp fiber, and tobacco. About 60 percent of their export earnings came from sugar, and 20 percent of their imports were foodstuffs—cocoa, coffee, eggs, fish, meat, and rice—all of which people could have produced locally, if the elite had not dominated the land for sugar production. Now, merchants imported huge quantities of rice, a staple, as well as cotton products, although the islands were quite capable of growing and processing their own cotton. Duty-free products were not allowed. pg. 220

Kitchener was a freemason, a fellowship whose upper echelon appears to support genocide. The whole point of the Boer War was to enable Britain to seize South Africa's mineral wealth. In 1886, explorers had discovered massive gold deposits in the South African Republic, which immediately drew British interests to that country

On April 7, 1785, Professor Vitus Renner, had said, "The Illuminati fear nothing more than to be known under their right name. They hide under the cloak of freemasonry."

Rockefeller's Standard Oil treasurer, Charles Pratt, bestowed his New York mansion to the CFR to use as its world headquarters.

Since the Rockefeller Empire was in Ohio, it is not surprising that Ohio was the pinnacle of nineteenth-century politics. Between 1869 and 1901, five out of seven presidents, all Republicans, came from Ohio—Ulysses S. Grant, Rutherford B. Hayes, James A. Garfield, William H. Harrison, and William McKinley.

Between 1895 and 1896, the United States and Britain almost came to blows over a longtime territorial dispute between Venezuela and British Guiana. Venezuelan officials granted concessions to US businesses in the gold fields in the disputed area. Theodore Roosevelt, then president of the Board of New York City Police Commissioners, was prepared to go to war. The United States could have held British Canada hostage, so the two countries negotiated. Britain would stay out of Latin America and would share whatever Asian resources they acquired through military force with the United States.

Within five years, Rockefeller was selling millions of gallons of oil and making millions of dollars and paying huge dividends, as much as 50 percent. By 1879, he would control about 90 percent of the US refining business and every important pipeline in the oil fields

With a holding company, companies bought each other's stock and camouflaged the actual ownership of many firms. Further, larger, wealthier

companies maneuvered and controlled prices, upset competition, and then acquired their rival's companies.

Devised underproduction increases profits and creates shortages, a hardship for consumers, while calculated overproduction eliminates beleaguered, underfunded competitors.

Socialism allows the monopolists to control the material products "resulting from the toil of the people, the right to charge for the use of this material and to make of us industrial slaves. They are practical socialists in the interests of the few."- Charles Lindbergh

In 1906, there were 160 medical schools in America. By 1920, there were eighty-five and by 1944, there were only sixty-nine medical schools in the country. This was caused by Rockefeller and Abraham Flexner.

Andrew Carnegie, a Pilgrims Society member, wrote, "To leave monopolists in control would not be tolerated by the people, therefore, there must be control and that control, as far as one sees, must be in the hands of the general government." pg. 261

Given the vast amounts of money missing from the Pentagon, immediately before 9/11.

People accused Carnegie of supplying inferior armor to the navy for US warships, for which officials heavily fined the company. Carnegie made every attempt to keep this information from the public

The ABA urged students who were associated with the B'nai B'rith Hillel Foundations located on 250 colleges throughout the United States to enter banking.

Now, all assets held in collateral by the Federal Reserve, including Social Security number holders and their assets, back Federal Reserve Notes. The Federal Reserve's assets as of November 14, 2007, per their reports, totaled $925,309,000,000. pg. 288

The FR Act required national and state banks to buy shares in their regional FR Bank in order to join the System. The eight nationally chartered banks that Mullins named were within the New York Federal district, and, as such, were required to buy stock in that entity, and were, as he argued, probably the primary shareholders.

Jews were predominate in opium trafficking. In April 1884, out of 3,763 containers of opium headed for China, Jewish traders owned 2,918 chests.

David Sassoon owned 1,040 while Calcutta merchants owned a total of 1,878.

Nasser al-Din Shah Qajar, the King of Persia (1848-1896) compensated for the territorial loss to Russia by seizing Herāt, Afghanistan (1856). Britain regarded the move as a threat to British India and declared war on Iran, forcing the return of Herāt as well as Iranian recognition of the kingdom of Afghanistan.

Friedrich Engels viewed the British occupation of Egypt, under Turkish jurisdiction, as in the pursuit of human interests.

On December 24, 1927, the Standard Oil plant, on the outskirts of Tientsin, caught fire during a battle between rival Chinese forces. The U.S. government had supported with troops and had endangered the lives of those marines to protect Standard Oil. Author of War is a Racket (1935), Butler died unexpectedly on June 21, 1940, at the Naval Hospital in Philadelphia. Popular military leaders who criticize the use of the military to protect corporate profits often die unexpectedly, particularly when they are receiving care in government facilities.

Herbert H. Kitchener used the scorched earth policy in the Second Boer War and destroyed farms and homes to prevent rebels from obtaining food and supplies.

At the end of a 10-hour day, laborers had to climb a ladder 1,000 feet out of the damp mines. They would receive two meager meals per day, and earn twenty-five cents a day, worth about five cents in China. They could not leave the compound without a permit. If they survived for three years, their masters would ship them back to China. Sponsored by Hebert Hoover.

Jacob Meckel (Prussian) introduced Clausewitz’s military theories, the Prussian concept of war games, and made numerous recommendations. Thereafter, Japan reorganized the command structure of the army, and strengthened their transportation infrastructure. In 1873, Japan’s newly appointed War Minister, Yamagata Aritomo introduced universal military conscription.

Because of these prior confrontations with America and Japan, the Koreans would inevitably shoot at all approaching foreign ships. Perhaps to provoke an incident, Commander Inoue launched a small boat, allegedly in search of drinkable water.

On February 8, 1904, without a declaration of war, Japan attacked Russian ships at Port Arthur and Incheon. Roosevelt anxiously awaited Japan’s invasion, and even bragged that he “would not hesitate to give Japan something more than moral support against Russia." Unfortunately, and probably purposefully, Russia failed to receive timely armament deliveries, which greatly affected their defense capabilities. Warfare decimated her economy, preparatory to the Marxist revolution in 1905.

Britain after the war demanded that Russia abandon the Kwantung Peninsula, territory leased from China six years before. Russia had already spent $300 million on improvements.

Whoever controlled the railways controlled the area’s political and economic future. Mesopotamia was far too important now that oil had become an economic factor. Britain charged fees for everytime a boat passed one of their sea-controlled areas.

Khazars created a "state within a state" in Russia by not assimilating and by doing business internationally through it.

Alexander II attempted to immobilize the terrorist's (Marxists) hostility by permitting even greater concessions. However, on the day that he proposed his latest resolution, March 13, 1881, after four earlier attempts, the terrorists, the very people he was trying to help, murdered him. The government hung many of the Narodnaya Volya leaders, most of whom were Jews, which left the group without strong effective leaders.

State of Duma (legislative committee) was created in Russia as a response to the labor protests in order to give workers voices and the development of political parties.

Wilson publicly endorsed Morgan following the banker-orchestrated crash of 1907. He said, “All this trouble could be averted if we appointed a committee of six or seven public-spirited men like J. P. Morgan to handle the affairs of our country.” Politically, Harvey supported Wilson while Rockefeller supplied the money. Cleveland H. Dodge, J. Ogden Armour, James A. Stillman, George F. Baker, Jacob H. Schiff, Bernard Baruch, Henry Morgenthau, Sr., and Adolph S. Ochs, publisher of The New York Times also supported Wilson.

In 1831-1832, Mazzini, a Marxist, organized Young Italy, a Masonic organization of males, ages sixteen to twenty. They robbed banks,

performed high-level assassinations, kidnappings for ransom, and they demanded “protection money” from numerous businessmen to prevent the thugs from burning or bombing their buildings. They called themselves “Mazzini’s Association for Insurrection and Assassination later shortened to MAFIA, perhaps the first Political Action Group. Organized crime and politics have long been associated in nearly every country. pg. 423

While the bankers sought passage of the Federal Reserve Act, they pretended to oppose it to keep the public from suspecting that they were behind it.

In June 1881, Obrenović signed a secret agreement with Austria-Hungary, vowing that Serbia would not act against the interests of Austria-Hungary in Bosnia and Herzegovina, and would not make political agreements with other countries.

"There were few citizens who could claim any knowledge of European affairs of state who had any interests in them." -Colonel House

British officials knew that there were U-boats in that shipping lane and deliberately withdrew the destroyer escorts. Additionally, a U-boat had recently sunk two ships, the Candidate and the Centurion, in the same path in which the Lusitania was traveling. Britain's Lusitania, then the world's largest and fastest passenger ship deceptively flew the US flag.

They made certain that Germany did not receive foodstuffs. Yet the international law dictated that belligerent governments allow the passage of all food destined for civilian populations.

The British government borrowed the Lusitania, equipped it with bases for mounting guns and reclassified it as an auxiliary cruiser.

Wilson deceptively told Congress that Americans had died when the Sussex sank, when in fact; people had towed it into a French port.

The Hague Convention explicitly allows only recognizable soldiers, not civilians, to bear arms and engage in combat. The civilian use of a weapon was and is justification for execution.

Hoover and others sold food to Germany (truce offering in 1916), just to prolong the war, at a time when Germany attempted to halt the war due to its inability to feed the nation.

Before the Russo Turkish War, those revolutionaries began slaughtering Bulgarian Muslims.

Propagandists colored the Armenians as a persecuted minority attempting to exist. They always described them as poor, innocent, and martyred, yet

they prospered in Ottoman society because they controlled a large part of the economy. Ottoman laws guaranteed equal rights to Jews and Christians who became very influential in numerous official positions. They had greater autonomy and freedom than the Muslims because Europeans demanded exclusivity for Christians.

The Armenians, despite their abundant advantages, rebelled against the Ottoman Empire following the invasion of the Russians into the Caucasian Muslim lands during the Russo-Turkish War pg.478

In 1893, hostilities erupted in Anatolia with skirmishes between armed Armenians and Muslims. Rumors abounded among the Muslims that the Armenians were going to rebel, causing the Kurdish militia to attack, kill, and plunder them. The Armenians retaliated by withholding their taxes, payable to the Kurds and the empire. The local governor, with Abdülhamid's approval, declared that the Armenians were in a state of rebellion and authorized the Hamidiye to attack, resulting in a series of massacres (1894-1896), over which the Ottoman officials had little control, until Western authorities pressured them to use the Ottoman army to intervene.

The fighting between the Muslims and the Armenians was vicious, and thousands perished. Those who fled often starved or died from disease because when the Russians seized the Van and Bitlis Provinces, they prohibited the Armenians from returning because they wanted the land for themselves. The Armenians fled to Russia when the Ottomans recaptured the area. The Armenians, who remained, especially in Erzurum Province, slaughtered the Muslims residing there, toward the end of the war. Muslims were poor compared to the Christians and Jews living within the Ottoman Empire.

The Ottoman Empire attacked Russia for control over the Black Sea. Most of the congress did not want war but Enver did. Because of many young men entering war, this wrecked their harvest for a year.

Not surprisingly, after World War II, the Allies discovered documents in the German Foreign Office that purportedly confirmed that Imperial Germany had financed the Bolsheviks.

Mustafa Kemal (freemason) falsified population and other statistics while Talaat Pasha transmitted deceptive telegrams. Talaat created fraudulent reports in a Blue Book, and in court records. Because of this genocide, Turkish officials would have to create an Armenian state with specific borders in an area populated by twice as many Turkish citizens as the total number of Armenians in the world. pg.548

Paul M. Warburg, Vice Governor Federal Reserve Board- 1495 Warburg relinquished his $500,000 a year job at Kuhn, Loeb to accept the paltry $12,000 a year job as governor of the Federal Reserve.

On March 7, 1918, the Senate passed the bill, which authorized the extension of $4 billion in credit to firms and corporations engaged in war-related industries. It became illegal in 1939.

The occupants of Lenin's train, of the 165 names published, twenty-three were Russian, three were Georgian, four were Armenian, one was a German, and 128 were Jewish.

President Wilson sent a telegram addressed to the Soviet Congress which read, "Let me take the opportunity on the occasion of this Soviet gathering to express the sincere sympathy felt by the American people for the Russian People. The American people are heartily with the Russian people in its determination to be forever free of autocratic government and to be master of its own destiny."

In 1910, Vladimir Lenin and Leon Trotsky participated in the International Masonic Conference in Copenhagen, where the Socialization of Europe was part of the presentation. pg.583

The peasantry, who grew the grain, had higher food costs without a corresponding increase in the wholesale price, through intermediaries, of their produce. Rather than relinquishing it, the farmers hoarded their grain or simply returned to subsistence farming in an attempt to meet their own needs. Hence, food was in short supply in urban areas, in addition to increasing prices, which, like a domino effect, provoked factory workers to demand higher wages. In January and February 1916, socialist propaganda and well-placed agitators triggered pervasive strikes, creating mass unrest and mounting criticism of the government.

Following the revolution, Russia was the first country in the world to make anti-Semitism a crime. On July 27, 1918, Lenin outlawed all anti-Semitism, a law, if broken, might result in execution.

In the 1930s, Marietta Shaginyan, a writer, discovered that Lenin was Jewish and certain individuals instructed her not to publicize this state secret. In 1935, the court ruled anti-Semitism a penal offense.

The Hungarian Commissariat consisted of twenty-six, eighteen of who were Jewish freemasons, a disproportionate number given the size of the Jewish population in Hungary, 1.5 million out of 22 million.

On August 5, 1919, Trotsky issued a memo stating, "The road to Paris and London lies through the cities of Afghanistan, Punjab, and Bengal." On

March 6, 1920, Lenin said, “Victory will be ensured in the not-too distant future.” Lenin prepared to invade India. Trotsky thought it essential to have an Asian command center from which to conduct a revolution in India, in conjunction with, and support of local revolutionaries. While the Bolsheviks wanted to immediately initiate another world war, the Russians were engaged in a civil war (1918-1919). Because they were expending the nation’s resources on fighting against dissident Russians, they were unable to initiate another world war. Moreover, Trotsky and Lenin could not send financing to the communist leaders they had installed in Central European countries, nor could they send the Red Army to Germany.

In 1915, Dr. Weizmann already knew what would occur in the next twenty years following the war. The British would establish a protectorate and the Jews would take over the country, as anticipated by the mandate system, the devious system legalized by the League of Nations, a body concocted by freemasons. They devised this system of governing a conquered territory with Palestine as their target.

David Kahn wrote a 1,000-page plus book, The Codebreakers, published in 1967. In chapter nine, he described how the British deciphered code 7500, but he mistakenly refers to it as 0075 (as Tuchman did), perhaps to confuse the issue. He wrote a second edition (1996) but did not amend chapter nine. He claims the British somehow broke the code. Kahn also claims, “to this day no one knows why Zimmermann admitted it.” (Those two contradict each other, Zimmerman wouldn't admit to it since he would be caught). In as much as Zimmermann acted on his own without the knowledge of the German government, German officials investigated the matter and called him to testify before the Reichstag where they compelled him to confess. pg.628

The winners write the history according to the unspoken but understood policies of the American Historical Association. Many influential tax-exempt foundations fund that association. That means they are government owned. If they were privatized there would be room for disagreement. Not to say there is no disagreement amongst some of the historians but when it is published, they only go with one perspective.

Effective January 1, 2006, the Smithsonian restricted access to its archives and its scientists to Redstone’s Showtime Network. Prior to this exclusive contract, all filmmakers relied on the vast holdings of the archives to produce accurate historical pieces. Millions of viewers now view history according to Showtime’s version of history. Showtime has full access to millions of historical documents, films, photographs and thousands of hours of recordings unavailable anywhere else in the world. One has to obtain

permission from Showtime, the Smithsonian’s new collaborator, to access these resources. pg.644

Lenin’s plans fell apart and he was about to have the anti-communist Germans too close to home. They would stop his revolution so he was ready to sign anything as long as he could retain part of Russia as a base. Trotsky wanted to fight but finally agreed with Lenin that they should sign the treaties. Lenin viewed this as a defeat but had no choice. It was either peace with Germany or extinction.

Governments that are almost certain to be victorious during a war must justify their warfare intentions to the citizens (because they win the war, and it looks suspicious what's in it for them). Governments do everything possible to subvert anti-war sentiments including formulating a sub-culture of problematic pacifists, like the anti-war drug culture of the 1960s, so that the majority of the population would predictably marginalize authentic pacifists who resist war for moral reasons. This means don't be a pacifist, that's what they want; they want antiwar people because those who want war in office claim they are "fighting for your freedoms and to defend others who live under tyrants." That's four false narratives you are getting from the TV box- one pacifist, two oil interests (hegemony), three for freedom (democracy, republic, open markets), and four to keep others safe. All four of which are lies because they help promote their system and to unite the world to get what they want. The antiwar pacifist’s people are never against civil wars and arming groups so they don't help stop these wars. These are all choices they are giving you. That's like ordering at a restaurant but all four dishes aren't what was advertised, you expect your money back. If someone working for them speaks out who has enough supporters, they will tell them “Shut up." They are expanding in the Middle East whether they will tell you outright or not, this cannot change and choices they decide are not the answers, these four choices don't help you at all. They will only make people overseas hate you, doing so only helps them hate you more, you are admitting to this that you are ok with it if you chose any of the four choices, that's terrible ethics on your part. Or you simply don't care but would if it happened to you.

Germans, already starving, were required to surrender their remaining livestock—they had to deliver their cattle, sheep, goats, pigs and even their dairy cows to France and Belgium. The confiscation of Germany’s coal resources caused the deaths of German children who were not only starving but would now freeze to death without a source of heat.

The kingpins would control China for opium sales. This made a great case for the Communist Party in China because they promised to shut them

down, unify China, and fight the imperialists (though they themselves are imperialist).

Consequently, they removed millions of acres from food production. China, short of food, was already struggling to feed its people. Choosing opium over food production caused a genocidal famine that led to the deaths of at least 6,000,000 peasants in four provinces, killing a third of the population in the Shaanxl Province between 1928 and 1933. pg.723

On April 5, 1933, because of the stipulations in the Emergency Banking Act, Roosevelt made it illegal for citizens to own gold. He ordered people to turn in all gold coins, gold bullion, and gold certificates to the FR banks by May 1 (Illuminati was created on May 1, 1776). Baruch, the single greatest holder of gold bricks, retained possession of his gold.

The British Mad Dog

Lord Randolph Churchill is the third son of the 7th Duke of Marlborough. He is a mediocre student who, along with his brother, George, is initiated into the rites of secretive Freemasonry.

In early 1874, Jennie Jerome and her beau, the previously mentioned Lord Randolph Churchill, do something very naughty (at least by the social standards of Victorian England!) and conceive a child while not yet married. The British Lord quickly marries the American heiress, making her Lady Randolph Churchill. Eight months after the wedding, the —wedding night baby‖ Winston Leonard Spencer Churchill is brought into the world —one month prematurely‖ -- with the proverbial silver spoon in his mouth. 12 As for the elite couple‘s second child, John (1880–1947), Lady Randolph's sisters would later confirm that the biological father was actually Evelyn Boscawen, 7th Viscount of Falmouth. Indeed, Winston‘s notoriously neglectful (4) and notoriously promiscuous (5) mother had numerous Royal lovers during her marriage. In addition to Count Boscawen, loose Jennie hooked-up with Austrian Prince Karl Kinsky, Edward the Prince of Wales (future King Edward VII), and Prince Herbert von Bismarck of Germany.

Sir Winston Churchill was allegedly the lovechild of King of Serbia

She shone for me like the evening star. I loved her dearly – but at a distance. Already fatherless by age 20, the distance between Winston and his mother would be made greater by her marriage in 1900 to George Cornwallis-West, a man 21 years her younger -- the same age as Winston!

As one might expect, young Winston becomes a rebellious child. At each of the three independent schools that he will be educated at, he compiles a poor academic 16 record (which has since been improved by court-

historians). Winston is a short and stocky boy (adult height of 5‘6) who speaks with a stutter and a lisp. Not surprisingly, he is teased and bullied by his schoolmates. Making matters worse, he was often punished for his poor grades.

While in Cuba, Churchill becomes hooked on Havana cigars, which he would smoke (heavily!) for the rest of his life.

The over-compensating fake tough guy and intrepid —war correspondent‖ absolutely loves war and justifies every imperialistic British atrocity as a way to bring civilization to barbarous peoples.

"Everything tends towards catastrophe and collapse. I am interested, geared up and happy. Is it not horrible to be built like that? The preparations have a hideous fascination for me" Churchill after the assassination of Archduke Ferdinand

Churchill knows very well that Austria-Hungary and especially Germany are being maneuvered into —striking the first blow‖. Austria-Hungary moves against Serbia, 33 which triggers a Russian mobilization (Russia being Serbia‘s protector); which in turn triggers French and British mobilization (as part of The Triple Entente agreement); which compels a reluctant Germany (Austria‘s ally) to launch preemptive advances both eastward and westward. Italy later joins the war (on the side of the Allies) and Turkey did as well ((on the side of the Central Powers)

The genocidal blockade from 1915 to 1919 depends upon the scattering of mines and the classification of food for civilians as —contraband‖. As a direct result of Churchill‘s hunger blockade, about 750,000 German civilians, mainly the vulnerable women, children and elderly, succumb to hunger and diseases caused by malnutrition.

Tsar Nicholas II had hoped to be exiled to the UK while Kerensky was in power, but his British "ally" had refused to take him in. The Bolsheviks (Communists) now hold Nicholas, his wife Alexandra, his four daughters and young son under house arrest. Their Red captors force them to live on rations.

The Communists ran the money-printing presses to finance their civil war and welfare schemes. When inflation follows, they impose price controls, causing farmers to lose money by farming. Compounding the shortage is the Red seizure of seeds.

Churchill was willing to guarantee the success of the genocidal Communist Revolution if Lenin and Trotsky (3 & 4) would fight Germany.

Churchill was a drunk

While still in his 20s, Winston Churchill acquired a reputation, which he would never lose, as a misogynist who could be notoriously rude to the women he sat next to at dinner parties." Michael Bloch The Daily Mail

And still, Churchill struggles to make ends meet. Expensive drink, highest quality cigars, fancy suits and shoes, extravagant cuisine, compulsive gambling and stock market playing render what should have been a multimillionaire into a hand-to-mouth, perpetually indebted good-for-nothing.

The British Mad Dog wanted to crush Gandhi under an elephant, and crush India's national aspirations in the same way he did Ireland's 10 years earlier. This is part of the reason why colleagues began to shun him.

In March 1938, Churchill had —simply come to the end of the road‖ and would have tumbled into bankruptcy but for a loan from Sir Henry Strakosch, one of several millionaires who admired Churchill and were agreeable to bailing him out. Neither man ever spoke about the rescue, which was kept secret.

Bernard Baruch gently informed Churchill that he had lost nothing since he left instructions to his employees to watch Churchill‘s transactions as he

went about his trading. Every time Churchill sold, Baruch‘s employees were to buy the same securities and every time Churchill bought, Baruch‘s employees were to sell.

Europe is at peace and the Jews who have remained in Germany are prospering in the revitalized economy; 75% of them being middle class or higher. Even the legendary Max Warburg, though stripped of his dominance over Germany's Central Bank, chose to stay in Germany until 1938.

The petition, stressed the intolerable sufferings of the millions of Jews in "the European holocaust" The establishment of diplomatic relations would mean a renunciation of Lithuanian claims to the region containing its historic capital, Vilnius. Tiny Lithuania, preferring peace to war, accepts bully-boy Smigly's ultimatum and conditions. Had Lithuania stood firm, it's quite possible that Stalin would have used the ensuing war as pretext to take the Baltic States (which he eventually will in 1940) and start the 2nd Polish-Soviet war.

Churchill‘s hawks are openly threatening to dump Prime Minister Neville Chamberlain if he refuses to deliver. (11) Having failed to ignite the war in Czechoslovakia, the warmonger‘s —Plan B‘ is to draw Stalin into a war alliance with Britain and France; and to then use Poland to start a war with Germany.

While the British openly court Stalin, Germany reaches out to Pope Pius XII – quite a contrast! The Vatican offers to mediate an international conference between Germany, Poland and the western powers. Germany and Italy are all in, but Britain refuses the Vatican‘s offer. pg. 142

MAY 27 – June 4, 1940 After Germany‘s stunning advance, the Allies are trapped on the beaches of Dunkirk, France. The entire force can be easily captured, but Hitler issues a halt order. June 22, 1940 Hitler and Field Marshal Petain make peace to create Vichy France. The armistice is signed in the same railway car in which Germany surrendered after World War I.

When now neutral France refuses the ultimatum, Churchill unleashes Operation Catapult – the naval bombardment of French ships. The Battle of Mers-el-Kébir, results in the deaths of 1,297 French servicemen, the sinking of a battleship and the damaging of five other ships.

The notorious drunk will bomb German civilian areas seven times. But Hitler refuses to do the same. German bombers are under strict orders to limit their attacks to military/industrial targets only…Finally, in September; Hitler is forced to declare that any more British bombings of civilian areas will be met with a similar response. When the German Air Force drops its first bombs on British civilian areas, the world press declares —Germany Bombs Civilians.

Tax Cuts for the Rich

It doesn't work to raise taxes on the rich; the money must go somewhere. We are far better off letting the rich invest in stocks instead of having government run investments or programs where the money goes to programs that are not at all thought out. Governments want the rich to buy up bonds and securities and will offer you tax exemptions. This makes the numbers look better in an economy and Presidents want this because you are investing in their companies (global warming as an example) which make the President look better. This is dumb because it is a President telling the free market what to do as if he has it figured out. It is also dumb because the securities mean that less money is put into the stock exchange, this is also money that cannot be taxed and is incentivized. Now, the lower class has to make up for the lost tax revenue which means their taxes or inflation goes up. The argument made in Thomas's pamphlet is not if taxes should be raised, but where the money is going because investors will invest, and governments always want their wealth somehow someway. If taxes are raised too high, governments know that no one will invest here, so they ask the rich to invest through government programs, it is stupid really. They want people to make the most here, but they want their way of thinking that their programs or securities will somehow help out the economy when it clearly doesn't. Only the investor knows where to invest because the buyer will tell them where to go. Also, the rich can get the securities if they invest in candidates because the candidates will lower their company's tax, which again is investing in a candidate instead of a free or even fair market which I regard as corruption since it really comes down to bias of which companies should pay what such as Wal-Mart and Goldman Sachs. You will see why the Democrats win here because they promise no more giving tax breaks to oil companies thinking that they are stealing money from the average citizen. They also win because other voters do not want to see taxes invested back into companies, they want to see the money directly in their kids' college education, and I'm not here to argue with that kind of people. Tax cuts are seen as greedy as well, yet they do not understand what a budget is, those who cannot budget cannot possibly be allowed to vote (Matt Damon).

It sounds fair when someone says to "keep money out of politics", but we do not know what to tax companies at a certain rate, remember that companies in certain areas make less than others and local governments are always looking for new ways to get companies to operate in their towns. Some retailers make less than others; do we tax those who make more at a higher rate? I wouldn't. These people put an absurd amount of trust in a federal government to figure out prices of everything through taxation, that's like betting on 21 being your two cards total but you expect it to be 21. That's not to say the far-right Capitalists are any better, you can tell which of the

two I would rather have. Also, I would reward companies with tax incentives for making more wealth. I also must prevent citizens from packing up towns, we want people to move away from the cities and create new ones that are cheaper and want people to go there on the weekend's verses having them drive to Boston and pay extra. We already have a big enough problem with oil consumption from people driving to work so I do not qualify for that question. I guess you would have to take out the local and state governments to keep money out of politics since they are messing up the system as a whole and ask each citizen where they want to live and how long they will live there. This would also mean exposing politicians who take bribes which would probably result in required jail sentences where we question how local politicians got that new jacket. It would be a mess! Corruption is in every government. Plus, you would have to control the media airtime of politicians, so no free media in TV at all.

Tax revenues had risen because now the rich paid lower taxes which allowed them to invest more in their companies. This made the companies more profitable.

To Kill a Nation Attack on Yugoslavia

1 Michael and I agree the attack was not misdirected or confused

2 the goal was to put Yugoslavia in a free market globalization

9 under the claim of helping Albanians in Kosovo

13 Western leaders argued Bosnia must remain "multiethnic"

17 between 1960 and 1980 Yugoslavia had one of the most vigorous growth rates, along with free medical care and education, a literacy rate of over 90 % and a life expectancy oof 72 years. This doesn't sound at all like a country with a tyrant running it.

22 as late as 1999, more than 3/4ths of its basic industry was still publicly owned. As far as the western free marketeers were concerned, these enterprises had to be either privatized or demolished

36 Slovenia's per capita income of $10,000 was close to that of Portugal and Greece. In 1998, it enjoyed a steady GDP growth of 4%, while inflation remained in the single digits. Slovenia's currency was stable, its budget

balanced, and its public debt was not a crushing one. Unemployment was 7%, which was low for its time.

111 Serbia had to sign the agreement or be bombed by NATO

115 NATO broke the UN Charter, NATO'S own charter states it can only act if one of its members is attacked. Yugoslavia did no such thing.

122 NATO'S arial attacks hit hospitals, schools, a bridge, churches, apartments to name a few

125 Clinton claimed NATO brought security to ethnic and religious groups in Yugoslavia completely overlooking the fact he did nothing over Turkey's killings and expulsion of Kurds. This is the proof that NATO only brings justice to countries that are not owned by them not caring about what their own regimes do making more problems with new governments.

176 Gaddafi, Hussein, Noriega, Milosevic all have in common that they were viewed as Hitler or inspired by Hitler

180 Yugoslavians all had access to news around the world through newspapers and if they had satellite dishes they could have almost any foreign channel. Yugoslav's foreign media outlets were untouched by NATO'S bombings

Ur Captivating History

20 Sargon of Akkad being found in a reed basket in a canal is most likely a legend

40 Nebuchadnezzar II brought Babylon success unmatched. He restored many temples, walls, and official buildings throughout his empire

44-45 houses in Ur were most likely mud and reed. Ur at its peak had 65,000 inhabitants. They had scribe schools, shops, kilns, offices for various smiths and artisans, as well as forts and watch towers. Ziggurats were made of a solid mass brickwork. In it’s center it was constructed of sun-dried brick, whereas kiln-burnt brick was used for its revetment laid in rather tough bitumen. It was to reach the Heavens, the one in Ur is the best.

56 Ur was made up of fishermen, hunters, craftsmen and farmers. Religion was slowly coming into shape; it did have some sort of religious figures. They were very successful craftsmen. The first was made up of elders and priests.

57 Anyone could work or pay off their slavery to buy their freedom, the children of slaves were free citizens. People worshipped a pantheon of gods.

59 children would be beaten with a stick in school if they were not discipline. They had some sort of military conscription.

60 the people believed their gods made them fall

69 Nimrod was claimed to worship fire, yet every ruler for thousands of years worshipped the moon god.

Why did the Soviet Union Collapse

6 after the failed coup in 1991 the Communist Party was banned. No one could have seen a complete collapse.

7 the countries forces were unable to prevent the tiny uprising in Chechnya

14 multiple parties emerged worldwide in 1970-1980, the goal was leaving the Soviet Union

29 Gorbachev encouraged attacks on Stalin, it led further to attack the whole system of socialism, picture in America if the youth spoke against the founding fathers there would be no America without them

32 the USSR since it's beginning was always voluntary to be a part of, this meant the uprising in Hungary should not have been crushed

36 If the Soviet Union was meant to fail since the beginning why did it fail in 1991 and not 2020 or 1960? This means it was meant to last as an empire but to each their own.

49 Stalin neglected housing

54 Brezhnev ended the purges

Bible From Arabia

To understand the Bible, we either have to go by the Jewish interpretation through Hebrew. Hebrew passed away at around 5th to 6th century B.C. Our best bet is to translate biblical Hebrew to Arabic. Syriac or Aramaic. These three languages are too similar. Rabbinical Hebrew is lost.

Asir, which was in-between Mecca and Narjan, was where all the trade stemmed from. Because merchants had come, they could talk people into Judaism which would spread all the way into Persia and Turkey

Canaanite language, then Biblical Hebrew, then Aramaic, then Arabic

Jerusalem could mean stronghold, 'holy place' al-Quds

The Hasmonean dynasty may have purposely mistranslated the Bible to have people believe their Judaic legitimacy. The Himyar Kingdom during that time which spread from Narjan to all of Yemen had Jewish kings who would dispute it pg. 22

There is limestone in Palestine; granite in Arabia which built King Solomon's Temple. There is or was plenty of gold in Arabia

Baca is Mecca

Biblical place names are still found to this day in West Arabia pg 34

Egypt Knew No Pharaohs nor Israelites

Faraon or Pharaoh was the term used for the Arabic ruler.

Pyramids were built 1500 years before the Israelites were alleged to have been there.

It is justified to refer to Arabia as Mizraim if you put in a footnote or if someone had asked which the correct name is. I would respond with "Misr".

Judaism is not a race- 14%

Ishmaelite is an Arabic name that comes from Ismail

Herodotus who had traveled around 450 BC to Egypt did not write of any Jews nor did he write of any Pharaohs. He came up with the name Palestine for the land that was once there.

Kardesh Banna is in Yemen. Kades Mountain where the battle was fought is in Kades Taai'z Yemen. First Jerusalem kept the Israelites safe because it would wear the enemy out to walk all the way up the mountain. David was actually in Arabia; he came before Moses. There were over 49,000 Jews in the Beit Bos fortress in Yemen; that means it was handed down from the time of the event....nice! 45%

Palestine and Philistine is not the same. Philistines are located near Yemen.

The Samaritans are the original Arabs but fled Babylon for New Jerusalem.

The Egyptians would have documented the absolute damage done if God had struck them.

Elohim, El and Allah are the same. Think El-------Ellah----Allah. Not to mention, Hebrew is different from Arabic, you could get the vowels wrong

but El and Allah is too similar not to point out. One another name used is Ellah, that is one letter away! It's like they were trying to say Allah, I don't study Hebrew. It would better my understanding if in Arabic; it doesn't start with El but Al instead. Muhammad's father name was "slave of Allah", that's what the Prophets name should be. The Aramaic word for God is Alaha, Assyrian Christians used name of God as Allah. Hebrew is the closest language to Arabic.

Asir is South Arabia- Asriaelites are Israelites

Muhammad referred to Egypt as Copt. That's where the term Coptic Christian comes from.

Pishon River is Wahdi Bisha. Ashraf says the Gardens of Eden is hiding somewhere in Yemen

Cush is Ethiopia. Sheba's and Solomon's son ruled over Ethiopia

Peraa meant palace, it had nothing to do with King

They didn't lie about crossing the Red Sea; everyone was required to own an Old Testament.

The land of Palestine was poor during 10th century BC, David would not be there. There was no population during that time. Later on it had fixed itself to become gorgeous.

Merneptahs Stele comes from Arabia; it is referencing Banu Canaan the Canaanites.

Abraham went around Arabia this is far more realistic than whatever fake narrative is being provided by alleged historians. He was also forming relations with towns to do trade, other towns must have documented him, they must have known him and said, "hello Abraham."

Abraham did not have a camel

Tayamon- giving the names to new settlements to old ones. Jericho, Megiddo, Hazor, Hebron, Gaza, Shechem, Samaria, Bethel, and Jerusalem 86%

Israelites were mentioned only once by the Egyptians who had kept records of trade.

Children of Israel; that is the earth or the religion of People of the Book.

Conclusion, this isn't so much a secret, it is just a matter of explaining the past to them, so they don't get frustrated putting pieces together, this is very easy to explain to someone who has spent a year reading the Bible or

the Quran. The point of this is to document the Prophets so we can get the Holy Books someday. What makes this necessary to explain to someone is that they are purposely hiding Moses being in Mizraim. However, this proves that every single government and most historians had lied to the public. This is how we know that Allah is with us, these snakes cannot make a case to get the Nile to the Euphrates when it isn't part of their scripture, and you wouldn't be led by them! The enemy really wants this land, it is written twice in Deuteronomy and once in Genesis, Numbers, and Ezekiel. We know that Abraham did not go around the gulf. I now know he did not travel that far, more proof, Abraham did not travel the land in the Quran!

Israel was in Arabia (we would never call the land there Israel, it is called Arabia), thanks to the Quran we know that was a lie in the Old Testament. Israel and Judah was a country within Arabia. Misr is the name for Arabia; all the Jewish tribes are in North Yemen but have now been moved to Palestine.

Galatians 4:25- Paul wrote down that Sinai is a mountain in Arabia; he must have known to go off to Arabia, that's why he went to Arabia. Mount Sinai is in Arabia, there is no such thing as the "Sinai Desert". This alleged Sinai Desert that is South of Palestine is not the Sinai; it was always part of Egypt. Without Paul, we Nazarenes would not know that they had forged part of the New Testament because most don't trust anything in the Quran. Now we have two separate sources to prove that Arabia was where the Bible took place. This is also referenced in Galatians 1:17 where Paul says he went off to Arabia, Arabs are also referenced in Acts 2:11.

TEMPLE MOUNT....MOUNT SHORT FOR MOUNTAIN, THE TEMPLE IS ONTOP OF THE MOUNTAIN

Psalms 84:3-6 pilgrimage as they pass through the Valley of Baka (Mecca). To get to Old Jerusalem for pilgrimage, you had to get through Mecca.

Isaiah 66:20-holy Mountain in First Jerusalem.

2 Chronicles 3:1 Then Solomon began to build the Temple of the Lord in Jerusalem on Mount Moriah.

2 Chronicles 5:2 to bring up the ark of the covenant of the Lord out of the city of David, which is Zion (the hill of First Jerusalem where the city of David was built).

Ezekiel 43:12 all the surrounding area on top of the mountain will be most holy.

no proof of the Old Testament stories in the near east and Palestine

some stories in the bible are legends and myths

there is no proof Adam's son was Seth along with Cain, these were four stories mixed into one. Adam is "a man"; Eve is "everything living". Adamah and Adn in Arabic are the same; this is where Yahweh created Adam. He did not make man in Eden or it's Garden. There is a tree of knowledge and a tree of life, Adam ate from the tree of knowledge but it wasn't a sin while Eve did not nor did she tempt him. If Adam ate from the Tree of Life, he would become a complete God. Eve was a Goddess but was reduced by Yahweh. pg. 35 is the correct story

Abel became Hubal who was worshipped until the coming of Islam. Cain led to the tribe of Qayn who were humble people who vanished overtime. Kenites are from Cain which is Amalekite. Nadwah is the land of Nod.

Al Bashir the false god claimed to never eat animals as he was one of the flesh.

The Noah nakedness story was the Israelites way of claiming that the youngest son who was the one of the Canaanite descendants (Ham) did not do the right thing of covering him and walking away, the story isn't true. The point is to claim that Noah cursed his son Ham for it.

279 the Ark of the Temple is in Wadi Tanumah

What went wrong Islam

54 Muslims only think about justice not liberty and tyranny/ This will end bad because it won’t translate for future generations.

69 women, slave, and unbeliever hold the lowest status in Islam. Two of which can lose that status

82 Islam ended birth, status, and wealth privilege of inheritance of power

103 there was no secular movement in Islam because there was no render under Caesar. This means there will be no “Islam reformation” we hear people ask for on the news.

113 Christianity and Judaism were tolerated as they were seen as earlier versions of Islam. Those days are over, the powers in charge are trying to paint Islam as something with no relation to any faith in the world. They could do this to Christianity, turn a brother against a brother.

139 we find no writings of philosophy in the Ottoman Empire. More proof this is what Allah would want where the faith runs the society and nothing else.

Who Was Jesus

For this document, I will be referring to Jesus the Messiah as Issa since his imposter Jeshu is too like the name Jesus. Before going any further, much of the stories in the New Testament are made up to fulfill prophecy to cover over the true Gospel 400 years before. Because prophecies come from the Book of Isaiah, we know many of the prophecies to be false since it isn't part of the Torah or the Psalms. The antichrist is going to go around the earth and test people on their knowledge of scripture, many from all the Abrahamic faiths will fail. This is the simplest way to explain it. I'd like to add to that we are led to believe these stories are European or are "white" since white people teach Christianity, this couldn't be further from the truth, the people are deeply Arabian. They aren't as relatable as one might think. Unless if we are from Arabia and we had carried down practices from generations, what I'm basically saying is even modern-day Palestinians or better yet Kuwaitis who are supposedly deeply religious are not relatable to these figures. I wouldn't say we've all been Europeanized, but traditions are gone outside of the hijab and eating date fruit occasionally. We aren't observing faith "wrong", but that this isn't the image we think. One Final note is Prophet Abraham died in Hebron; this is more likely in Arabia since the Muslim faith teaches us that Abraham built the Kaaba unless if you do not believe that.

There is no doubt outside of Christian scriptures that Issa had existed.

There is no proof "Saul" changed his name to Paul, there are many theories of these being two separate people

The book of Acts is a continuation of the Gospel of Luke pg. 22

Paul went off to Arabia but didn't tell the Apostles, he didn't tell us the motive. The Jerusalem Apostles suppressed all accounts of Paul going to Arabia and we only have the last few years of Issa life to hide Issa being in Arabia. Then Paul starts writing all of this stuff about Jeshu none of which is true. Paul was in on this, Paul had seen the antichrist in a dream. The Apostles call us the antichrist for denying their false god.

We don't know what prophecies did happen and which stories are lies take for example Issa in the temple and Prophet Samuel with his mother Hannah

Jeshu mother may not have been named Mary; his mother's sister was named Mary

Judas was also Jeshu brother; his career was both political and religious. Jeshu was no hero; he wanted a throne and was willing to die to be remembered in history.

Jeshu was an illegitimate son of a Roman soldier called Panther. He is referenced by name in the Jerusalem Talmud as Jeshu.

Paul was the one who brought Christianity to Rome, not a group trying to overthrow Pilate through influence pg. 45

Issa can be called Yeshua but not Jeshu

Issa was born in Mecca

Issa was around the fifth century BC and not first century AD. That is where the small Christian group of Narjan came from and started "Christianity"

Issa was by birth belonged to Levite aristocracy

Since the Christians had made the error of Maryam and Issa being eternal god's it is only fitting that they would believe Issa was the son of God which Muhammad had cleared up

Issa did have disciples, but they are not named in the Quran. Some people may wonder why the "Christian" faith didn't pick up, the Gospel was in Arabia and it wasn't well known.

Mark provided source material for both Luke and Matthew

The birth and infancy of the Issa in Matthew is opposite than the Quran making it false

Yahya and John the Baptist aren't the same pg. 69

Luke's Christmas story is false. Israelite had a ban of intermarriage between tribes. Maryam was not a Levite and his false father was of the royal house of Judah. Jeshu is from the David line and his father was Joseph the carpenter.

In Galatians 4:4 Paul knew of the tradition of Issa as the Messiah but was not going to name Jeshu he wasn't going to tell us his Jeshu's father or mother

John and Luke spoke about Issa; however Paul attributed Jeshu to Issa to make up his own mystical tradition. These people put their names to this Gospel which is false.

Paul would do anything to hide these "secret books" which were genuine Gospels, Paul would ask for these books to be sent to him in prison to be destroyed

There is no proof Yahya was a Baptist, but John was. Baptism was a part of Judaism but a small section. In Luke and John, the Issa is clearly a fusion of Jeshu and Issa.

Issa came not long after Ezra. This means Muslims were not in Babylonian Captivity with the true Gospel, this also explains why the true Gospel was not in Palestine during Jeshu's time. It also makes us wonder how or when Christians migrated to Arabia before Muhammad which makes it more believable Palestine had exported a false gospel into Arabia that other tribes did not get.

Ethiopia had the lost Gospel as well

Jeshu was a religious figure who could have been the leader of the Nazarene religious revival.

2 Peter 3:14-16 there are some difficult things in his letters which ignorant and unstable people explain falsely. It can't be the "son of God" because 1 John 5:10 is a son of God reference. The Apostles were clearly hiding Issa's Arabian origins.

Luke had thought Jeshu and Issa were the same person and fused them into one Gospel. John knew Jeshu and Issa were different people. Because there were Nazarenes in Arabia (Muslims), John had asserted that Issa spent his whole life in Nazareth or in Bethlehem. John knew Jeshu's maternal aunt was named Mary and that Issa's mother's name was Mary so he tried his best to brush it aside. John knew the real name of Jeshu's mother but hid it.

Issa started in Arabia Jerusalem or at least nearby whereas Jeshu ended in Palestine Jerusalem.

Jeshu who went from Galilee to the Jordan River would have had to move eastward across the Jordan River to reach the territory beyond the Jordan. A few days later, he went up to Jerusalem (Galilee is above it), then he 'went on' to the providence of Judea (Jerusalem is in Judea).

When Jeshu stated that all Prophets were persecuted the writers borrowed this from Issa claiming that Prophets are persecuted and put it in Jeshu's words

Jeshu probably came from Galilee in Arabia. That is why Paul was told to go to Arabia

We know Judah and Judea are separate locations. John had changed the Arabian Judah name to Judea in order to cover up Issa's footsteps. John missed one point where Jeshu had two origins of Judea and Galilee.

Jeshu had political and religious views that got him killed, he didn't claim to be the Messiah but was a descendant of David. Even our calendars are wrong which Muhammad corrected. A.D. after the death of Jeshu.

Jeshu's ancestors were from a village that has the same meaning as a carpenter. Jeshu was from the Hejaz. Aramaic was spoken in both Palestine and the Hejaz; that is how Jeshu got the language. Jeshu jokingly called his disciples sons of thunder. Jeshu had 72 followers; the 12 number comes from the 12 tribes of Israel as shown in Luke 10:1. The number 72 has meaning as Muhammad said Islam would be split into 72.

When Jeshu met Nathaniel, he said there was nothing false in him meaning that he was of Israelite descent

The Zealots were against Greek culture being brought into society by Herod, they were terrorists. Simon was from a place in Hejaz called Zu'lah, he was not a Zealot.

Because Judas was translated as the "man with the dagger" (which was mistranslated to describe his homeland) he was supposed to be the person who betrayed Jeshu. Iscariot does not mean betrayer. His surname means Askar which is in Taif region of Arabia.

Jeshu saw a chance to receive the throne in Palestine because he was from the line of David. pg 106

Jeshu wasn't married and had to have been below 30 since it was unheard of for a male to be unmarried at that age. Jeshu was political, but Herod still sent out Sadducees to trap him. Jeshu knew he was going to die; he wanted to die as "the Messiah", he declared that his kingdom was not of the earth and followed the prophecy of Zachariah 9:9 to enter Jerusalem riding on a donkey. Herod wanted Jeshu killed for claiming to be the King of Israel; the Jews wanted him killed for blasphemy. Pilate knew he wasn't innocent but felt it wasn't right to have Jeshu killed so he explained he was not guilty for it.

Mary Magdalene was a harlot who served all of the disciples who were unmarried young men, only Simeon was married. How was Mary Magdalene able to locate the disciples after they were arrested since one was alleged to have been with her during the resurrection?

Jeshu's ancestry pg 138

The Nazarene Church in Palestine dispersed after the Romans conquered Palestine, through many persecutions, Paul's false Church succeeded.

Luke and John's Gospels clearly fuse Issa with Jeshu

"whoever believes in me will never die", "I am the vine.....you can do nothing without me" Jeshu. The Jews got it right that Jeshu was insane.

No less than seven villages in Arabia are called al-Issa; gods were named after people or attributes of the area. It was meant to be Ays' 'the one who keeps watch at night'

Dominion is replaced with kingdom in Jeshu's prayer

Al Issa the false god had the ability to give life to the dead through his water and could revive the dead. The Israelites were confused about this false god. Paul was fascinated at the thought of a god that was both a god and a 'son of god' that could resurrect himself from the dead; the true Messiah Issa didn't appeal to him in any way. Paul worshipped his Lord 'Jesus'; there is no trinity for these people. 'Christ means redeemer, that is why the freemasons call themselves Christian, he brings the dead back to life.

the mythological Al Issa 'the giver of eternal life' raised Lazarus from the dead; John fused and underplayed it with Jeshu.

Al-Eizariya never was 'Bethany', Lazareth was an Arabian god legend with Al- Issa and Al Adhr, Al Issa's life-giving ability is established in this story

Luke confused Mount Olives with Olivet from Samuel 15:30

Al- Issa set out to destroy the fig god; that is where the false story of Jeshu drying up the fig tree was inspired

Jeshu was not hiding during the last supper; he was surprised to see that he was going to be arrested

Matthew misquotes Jeremiah for Zachariah 11:12-13. He also says that north and south Galileans have different looks and a different dialect. pg. 183

Judas betrayed the Nazarene Way (apostles) by leaving Palestine for the Hejaz to avoid death. Judas wasn't liked from the beginning being the bursar (money holder), he was known for being frugal and the apostles accused him of stealing the money.

Peter's vision was a lie, we can't eat pork

fertility god's who die one place to reappear triumphantly elsewhere was common in the Near East (Adonis, Osiris etc). Both Joseph and Issa had similar stories of them being robbed and reappearing. This means the freemasons and the Yeshu Arabian cult believe in a false god who came back to life and can resurrect the dead. Both are saviors.

Bashar Al- Assad has to lie to people about Isa being persecuted when there is no proof for it at all. We know for a fact that Issa did not suffer in Judea. He will not tell us the full story since Saudi Arabia will no doubt pull the plug and begin ruining the Holy Land. Also, once the Second Temple had fallen, most Jews had still waited for a Messiah. Bad people had written in that a Third Temple would come and "Christians" would be the enemy. Had they have known Christianity in Arabia apart from the Nazarene Way, they would not have written in them as the enemy but because the Nazarene Way with its leader Jeshu had opposed the Jews, these Christians which would spread into Europe would become the enemy. There definitely wouldn't be any hate written in that is in the Jerusalem Talmud, just simply put "the third temple will be constructed and the Messiah will come" knowing whoever is in the way would have to be taken out. They know Muhammad is a Prophet, but they don't do Hajj which proves the Jews have a false god. Finally, the Quran is most like the Old Testament which means the New Testament was written in wrong, they were bound to make mistakes to changing the law that Issa had made.

Zealot the Life of Jesus

XXIV there’s almost no trace of Jesus

37 the Jews didn’t know who Jeshu’s father was

42 paying to Caesar is a way of saying Caesar owned it, it outraged the Jews

47 Pilate would crucify anyone who protested paying the tax

77give back to Caesar what is his give back to God what is God's meaning take the land from the Romans, Jeshu incited a revolution hence why he was crucified and called King of the Jews a common title for Jewish revolutionaries

85 baptism was for repentance of sins, this means someone could be baptized daily and it also means baptism should not be the way to become Christian yet there is not one Christian sect that believes this

137 son of man comes from Numbers

143 son of man kingdom of what?

147 threat by Jeshu

154 crucifixion was done by all empires and it was a cheap method of execution, it was meant as a deterrent to crime. If it really was meant as this end all statement then the Romans would pick a different method.
